## Academic Program Description

# Al-Bayan University College of Health & Medical Techniques

2025 - 2024

Department of Medical Lab Techniques  
September 10, 2024 (Updated)

<b>University</b>	Al-Bayan University
<b>Faculty/Institute</b>	College of Health and Medical Techniques
<b>Scientific Department</b>	Medical Lab Techniques
<b>Academic/Professional Program Name</b>	Academic Program Description
<b>Final Certificate Name</b>	Bachelor in Medical Laboratory Techniques
<b>Academic System</b>	Morning/ Evening
<b>Description Preparation Date</b>	<b>1-09-2024</b>
<b>File Completion Date</b>	<b>10-09-2024</b>

#### Head of Department

**Signe**

**Name** Prof. Dr. Waleed Hameed

**Date** 10-09-2024

#### Scientific Associate

**Signe**

**Name** Lec. Dr. Mytham Jabouri  
Abdullhusein

**Date** 10-09-2024

This File has been checked by Quality Assurance and University Performance  
Director of Quality Assurance and University Performance Department

#### Head of Quality Assurance Section

**Signe**

**Name** Lect. Sarah Abdulateef

**Date** 10-09-2024

**Approval of the Dean**  
**Prof. Dr. Gaith Ali Jasim**

## **1. Program Vision**

**Building a scientific, medical and technical institution that supports health, medical and educational institutions by preparing medical technical cadres in the fields of medical laboratories that will advance their role in developing health institutions and participating in applied medical studies on solid scientific foundations that are in line with developments in the relevant medical fields.**

## **2. The Message of the Academic Program**

**Choosing the best modern scientific methods in preparing technical cadres by providing qualified faculty members to deliver knowledge, information and keeping pace with modern scientific developments in addition to providing students with scientific expertise through practical and applied training in college laboratories, and opening horizons of scientific corporations with relevant corresponding departments.**

## **3. Program Objectives**

**Preparing specialized technical staff to serve various medical specialties (medicine, dentistry, pharmacy and nursing).**

**Contributing to the development of society through developing health services in cooperation with health and national institutions, and preparing and implementing health programs and plans, benefiting from the expertise of specialties and Providing the necessary equipment to improve the quality of health services.**

**Encouraging medical and health research in the fields of medical laboratory technique and other medical specialties.**

**Supporting hospitals and health centers with medical staff specialized in medical laboratories techniques as well as filling the needs of health institutions, official and private hospitals, and private pathological analysis laboratories.**

#### 4. The Program Accreditation

N/A

#### 5. Other External Influences

N/A

#### 6. Program Structure

Course Structure	Number of Courses	Credit Units	(%)	Reviews
Institutional Requirements	14	23	12	
College Requirements	11	42	21	
Department Requirements	39	115	67	
Summer Training				Satisfied
Other	-	-	-	-

#### 7. Program Description

Year / Level	Course Code	Course Name	Credit Hours	
			Theoretical	Practical
1 <sup>st</sup> 1 <sup>st</sup>	02011101	General Chemistry1	2 Hours	1.5 Hour
	02011102	Medical Terminology	2 Hours	
	02011103	Human Biology1	2 Hours	1.5 Hour
	02011104	Laboratory Instruments1	2 Hours	1.5 Hour
	02011105	Medical Ethics	2 Hours	
	02011106	Computer Fundamentals	2 Hours	1.5 Hour
	02011107	Human rights and Democracy	2 Hours	
	02011108	English language	2 Hours	
2 <sup>nd</sup>	02011201	General Chemistry2	2 Hours	1.5 Hour
	02011202	Anatomy	2 Hours	1.5 Hour
	02011203	Human Biology2	2 Hours	1.5 Hour
	02011204	Laboratory Instruments2	2 Hours	1.5 Hour
	02011205	Arabic language	2 Hours	

1 <sup>st</sup>	02012101	Medical Bacteriology 1	2 Hours	1.5 Hour
	02012102	Biochemistry 1	2 Hours	1.5 Hour
	02012103	Human Physiology1	2 Hours	1.5 Hour
	02012104	Histology 1	2 Hours	1.5 Hour
	02012105	Molecular Biology	2 Hours	1.5 Hour
	02012106	Medical Parasitology 1	2 Hours	1.5 Hour
2 <sup>nd</sup>	02012107	Crimes of Al ba'ath regime In Iraq	2 Hours	
2 <sup>nd</sup>	02012201	Medical Bacteriology 2	2 Hours	1.5 Hour
	02012202	Biochemistry 2	2 Hours	1.5 Hour
	02012203	Human Physiology2	2 Hours	1.5 Hour
	02012204	Histology 2	2 Hours	1.5 Hour
	02012205	Medical Parasitology2	2 Hours	1.5 Hour
	02012206	Descriptive Biostatics	2 Hours	1.5 Hour
	02012206	Arabic language	2 Hours	
3 <sup>rd</sup>	02013101	Histopathology1	2 Hours	1.5 Hour
	02013102	Hematology1	2 Hours	1.5 Hour
	02013103	Medical mycology	2 Hours	1.5 Hour
	02013104	Metabolic Disorders	2 Hours	1.5 Hour
	02013105	Medical Genetics1	2 Hours	1.5 Hour
	02013106	Immunology1	2 Hours	1.5 Hour
	02013107	Computer applications	2 Hours	1.5 Hour
	02013108	Advanced Laboratory Techniques	2 Hours	1.5 Hour
2 <sup>nd</sup>	02013201	Histopathology2	2 Hours	1.5 Hour
	02013202	Hematology2	2 Hours	1.5 Hour
	02013203	Medical virology	2 Hours	1.5 Hour

	02013204	Clinical Endocrinology	2 Hours	1.5 Hour
	02013205	Medical Genetics2	2 Hours	1.5 Hour
	02013206	Immunology2	2 Hours	1.5 Hour
	02013207	Computer applications	2 Hours	1.5 Hour
	02013208	Analytical Biostatistics	2 Hours	1.5 Hour
	02013209	Summer Training	Satisfied	

4 <sup>th</sup>	0201423	Clinical Immunology	2 Hours	1.5 Hour
	0201424	Diagnostic microbiology	2 Hours	1.5 Hour
	0201425	Clinical chemistry	2 Hours	1.5 Hour
	0201426	Medical Parasitology	2 Hours	1.5 Hour
	0201427	Blood Transfusion	2 Hours	1.5 Hour
	0201428	Histopathology	2 Hours	1.5 Hour
	0201429	Graduation Research		5 Hours
	0201430	Laboratory management and teaching of research methods	1 Hour	
	0201431	English	2 Hours	
	0201432	Professional Ethics	2 Hours	

## 8. Expected learning outcomes of the program

### → Knowledge

- Outcome Learning 1** *The student should be able to identify all types of laboratory equipment*
- Outcome Learning 2** *The student should be aware of how laboratory equipment works and how tests can be performed on it*
- Outcome Learning 3** The student will know how to manage the laboratory correctly and accurately
- Outcome Learning 4** The student will know how to read laboratory results correctly and without error

## → Skills

- Outcome Learning 1** *The student will be able to conduct analyzes on various devices in a professional manner*
- Outcome Learning 2** *The student must be able to perform the blood drawing process smoothly and with sufficient skill*
- Outcome Learning 3** *The student will be able to perform bacterial culture operations to be able to diagnose the correct bacterial type*
- Outcome Learning 4** *the student will be able to perform the tissue biopsy process successfully and professionally*

## → Values

- Outcome Learning 1** *The student should be able to understand the importance of this department and what possibilities it provides to the community and medical personnel*
- Outcome Learning 2** *That the student will be able to develop medical laboratories and access better methods to obtain faster and easier results for patients*
- Outcome Learning 3** *The student should be able to create new laboratories with modern and rare equipment to carry out new and rare tests in the country*
- Outcome Learning 4** *The student will be able to maintain laboratory equipment and plan regular maintenance at close intervals on a routine basis*

## 9. Teaching and Learning Strategies

<i>Theoretical Lessons</i>	<i>Laboratory training</i>	<i>Conduct laboratory experiments</i>
<i>Practical Lessons</i>	<i>Conduct scientific discussions with students</i>	<i>Show video clips of laboratory experiments</i>
<i>Sending students to hospitals for training</i>	<i>Holding seminars and conferences</i>	<i>Assistance in supervising</i>

graduation  
research

## 10. Evaluation Methods

<i>Oral exams</i>	<i>Weekly exams</i>	Monthly exams
<i>Quick quiz</i>	Presenting Seminars	Midterm exam
<i>Making scientific reports and essays</i>	Practical exams	Final exam

## 11. Faculty Members

Titles	Specialization		Staff	Numbers Lec
	General	Special		
Prof	<i>Veterinary medicine</i>	<i>Cell Physiology</i>		
Prof	<i>Biology</i>	<i>Animal Physiology</i>	3	0
Prof	<i>Biology</i>	<i>Animal Physiology</i>		
Prof	Medicine	<i>Anatomy</i>		
Asst. Prof	<i>Genetics</i>	<i>Microbial Genetics</i>	3	0
Asst. Prof	<i>Biology</i>	Microbiology		
Asst. Prof	<i>Veterinary medicine</i>	<i>Parasitology/Hematology</i>		
Lecturers	<i>Veterinary medicine</i>	Parasite		
Lecturer	Microbiology	<i>Immunology</i>		
Lecturer	Biology	Microbiology/Bacteriology		
Lecturer	Veterinary medicine	<i>Physiology</i>	6	0
Lecturer	General medicine and surgery	Kidney and urinary tract surgery		
Lecturer	<i>Biotechnology</i>	<i>Biotechnology</i>		
Asst. Lecturers	Chemistry science	<i>Biochemistry</i>	22	0
Asst. Lecturers	science	Life science		
Asst. Lecturers	Biology	<i>Microbiology</i>		
Asst. Lecturers	Biology	Microbiology		
Asst. Lecturers	Biology	Microbiology		

Asst. Lecturers	<i>Veterinary medicine</i>	Parasite		
Asst. Lecturers	<i>Veterinary medicine</i>	<i>Common diseases</i>		
Asst. Lecturers	<i>Medical Microbiology</i>	<i>Molecular Virology</i>		
Asst. Lecturers	<i>Veterinary medicine</i>	<i>Histology</i>		
Asst. Lecturers	<i>Veterinary medicine</i>	<i>Histology and embryology</i>		
Asst. Lecturers	<i>Veterinary medicine</i>	Parasite		
Asst. Lecturers	<i>Electrical Engineering</i>	Computer Science/ Data Security		
Asst. Lecturers	<i>Chemistry</i>	Clinical Biochemistry		
Asst. Lecturers	<i>Chemistry</i>	<i>Biochemistry</i>		
Asst. Lecturers	<i>Veterinary medicine</i>	Parasite		
Asst. Lecturers	<i>Biology</i>	<i>Microbiology</i>		
Asst. Lecturers	<i>Biology</i>	<i>Microbiology</i>		
Asst. Lecturers	<i>Veterinary medicine</i>	<i>Histology and Anatomy</i>		
Asst. Lecturers	<i>Biology</i>	<i>Microbiology</i>		
Asst. Lecturers	Life science	<i>Animal Science</i>		
Asst. Lecturers	<i>Veterinary medicine</i>	<i>Physiology</i>		
Asst. Lecturers	<i>Veterinary medicine</i>	<i>Physiology</i>		
Teaching Asst.	Pathological Analytics Techniques		1	0

## Professional Development

### Mentoring New Faculty Members

Guidance and directing are provided to new recruits in the Department of Industrial Kidney Techniques by engaging those concerned in training workshops and holding specialized seminars in their work, as well as development courses.

## **Professional Development for Faculty Members**

Creating developmental sessions by involving them in teaching and then making an evaluation through a referendum by the stages they taught.

## **12. Admission Criteria**

The target group for admission to the department of Medical Laboratory Techniques is graduates of secondary school in the scientific section only with a grade point average of no less than 70 percent.

The application mechanism to study in the department will be after the announcement of the high school results and the opening of the gate for admission by the registration department at the presidency of Al Bayan university.

## **13. Key Sources of Information about the Program**

- 1- The university's website and other websites
- 2- Prescribed scientific references, including books and magazines related to the academic curriculum
- 3- Lectures presented by faculty members in the department

## **14. Program Development Plan**

- The Department of Medical Laboratory Techniques intends to be a pioneer in developing new, concise and easy methods for both the patient and the Medical Lab Technician, with the presence of an experienced and professional teaching staff with high and precise scientific competence, so that it can create a generation with leadership in this field and be the first to take this step.
- The Department of Medical Laboratory Techniques also aspires to be the first to develop laboratories that are rarely found in educational and academic institutions, such as immunology laboratory, genetic laboratory and stem cells laboratory, with highly capable and efficient equipment to contribute to increasing students' academic information so

that they can open such laboratories after graduation from the department which the country extremely needs because of its rarity In the region.

## Program Skills

				Learning Outcomes Required from the Program											
Year/Level	Course Code	Course Title	Primary or Optional	Knowledge				Skills				Values			
				A1	A2	A3	A4	B1	B2	B3	B4	C1	C2	C3	C4

## Course Description (General chemistry 1)

<b>1. Course Title</b>		<b>General chemistry 1</b>	
<b>2. Course Code</b>		<b>02011101</b>	
<b>3. Semester/Year</b>		<b>Semester</b>	
<b>4. Description Preparation Date</b>		2024/9/4	
<b>5. Available Attendance Form</b>		<b>Official attendance time (morning and evening)</b>	
<b>6. No. of Hours (Total)</b>		<b>30 hours for the theoretical aspect and 30 hours for the practical aspect</b>	
<b>7. No. of Credits (Total)</b>		<b>4 units</b>	
<b>8. Course Administrator Name</b>		<b>Dr.Mustafa Saleem Shareef Lec.Yousif Nadim Abbas</b>	
<b>9. E-mail</b>		<a href="mailto:Mustafa.s@albayan.edu.iq">Mustafa.s@albayan.edu.iq</a> <a href="mailto:Yosif.n@albayan.edu.iq">Yosif.n@albayan.edu.iq</a>	
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Teaching students basic scientific concepts of general chemistry topics with focusing on chemical reactions principles.	
	<b>A2</b>	Studying analytical chemistry, standard solutions, acid base titrations with various techniques.	
	<b>A3</b>	Teaching general organic chemistry topics and classifications	
	<b>A4</b>	Teaching major application of spectroscopy in field of health techniques.	
<b>Skills</b>	<b>B1</b>	Scientific discussion	
	<b>B2</b>	Weekly exams	
	<b>B3</b>	Monthly tests	
	<b>B4</b>	Practical examinations	
<b>Values</b>	<b>C1</b>	Participation in the classroom	
	<b>C2</b>	Provide activities	
	<b>C3</b>	Semester and final tests and activities	
	<b>C4</b>	Self-learning, discussion panels	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	<b>Active participation in the classroom is evidence of the student's commitment and responsibility</b>		<b>4.</b> <b>Developing the student's ability to deal with multiple tasks.</b>

# جامعة البتة

2.	<b>Adherence to the specified deadline for submitting assignments and research.</b>	5.	<b>Active participation in the classroom is evidence of the student's commitment and responsibility</b>
3.	<b>Semester and final exams express commitment and cognitive and theoretical understanding.</b>	6.	<b>Developing the student's ability to deal with technical means</b>

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2 theory 2 practi.	The way out in theory The way out in practice	Introduction to chemistry Laboratory instructions, safety rule, equipment	presence	Daily, monthly and annual written exam
2	2 theory 2 practi.	The way out in theory The way out in practice	Analytical chemistry Preparation of different types of solution, percentage sol, ppm	presence	Daily, monthly and annual written exam
3	2 theory 2 practi.	The way out in theory The way out in practice	Molar mass Normal solution, molar solution, dilution	presence	Daily, monthly and annual written exam
4	2 theory 2 practi.	The way out in theory The way out in practice	Acid base theory Neutralization reaction	presence	Daily, monthly and annual written exam
5	2 theory 2 practi.	The way out in theory The way out in practice	Periodic table Redox titration	presence	Daily, monthly and annual written exam
6	2 theory 2 practi.	The way out in theory The way out in practice	Acid base titration Buffer solution preparation and pH determination	presence	Daily, monthly and annual written exam
7	2 theory 2 practi.	The way out in theory The way out in practice	Spectroscopy Identification of some common inorganic cation	presence	Daily, monthly and annual written exam
8	2 theory 2 practi.	The way out in theory The way out in practice	Review and exam Identification of some common inorganic anion	presence	Daily, monthly and annual written exam
9	2 theory 2 practi.	The way out in theory The way out in practice	General organic chemistry Determination of melting point	presence	Daily, monthly and annual written exam

# جامعہ البیان

10	2 theory 2 practi.	The way out in theory The way out in practice	Reactions of organic chemistry Determination of boiling point	presence	Daily, monthly and annual written exam
11	2 theory 2 practi.	The way out in theory The way out in practice	Alcohols classifications Reaction of some organic compounds	presence	Daily, monthly and annual written exam
12	2 theory 2 practi.	The way out in theory The way out in practice	Aldehydes and ketones Scheme for identification	presence	Daily, monthly and annual written exam
13	2 theory 2 practi.	The way out in theory The way out in practice	Carboxylic acids Scheme for identification of solid organic compounds	presence	Daily, monthly and annual written exam
14	2 theory 2 practi.	The way out in theory The way out in practice	Aromatics compounds Identification of alcohols	presence	Daily, monthly and annual written exam
15	2 theory 2 practi.	The way out in theory The way out in practice	Amines properties Aliphatic and aromatic carboxylic acids	presence	Daily, monthly and annual written exam

### 13. Course Evaluation

Distribution of the grade out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, written exams, reports, etc.

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	General Chemistry principal book
Main References (sources)	Articles
Recommended Books & References (Scientific Journals, Reports ...)	Organic chemistry, Jonathan, 2022.
Websites or Electronic References	Wikipedia, research gate, Google Scholar, and many

## Course Description (Medical Terminology)

<b>1. Course Title</b>	<b>Medical Terminology</b>		
<b>2. Course Code</b>	<b>02011102</b>		
<b>3. Semester/Year</b>	<b>Semester</b>		
<b>4. Description Preparation Date</b>	2024/9/5		
<b>5. Available Attendance Form</b>	<b>Students' attendance</b>		
<b>6. No. of Hours (Total)</b>	<b>2</b>		
<b>7. No. of Credits (Total)</b>	<b>2</b>		
<b>8. Course Administrator Name</b>	<b>Prof.Dr. Ghaith Ali Jasim</b>		
<b>9. E-mail</b>	Ghaith.a@albayan.edu.iq		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Introducing medical terminology concept to students	
	<b>A2</b>	Knowing how medical terms is formed	
	<b>A3</b>	Understanding of the formulation of medical terms	
	<b>A4</b>	Fluency in describing patient's conditions	
<b>Skills</b>	<b>B1</b>	build medical linguistic skills	
	<b>B2</b>	Standardize documentation	
	<b>B3</b>	Improve communication skills with medical staff	
	<b>B4</b>	Ability to describe health status with patient in the common language	
<b>Values</b>	<b>C1</b>	Promoting accuracy, safety, and efficacy in patient's care	
	<b>C2</b>	Providing patient's with treatment plan with same common goals	
	<b>C3</b>		
	<b>C4</b>		
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Lecture based instructions	<b>4.</b>	Inquiry based instruction
<b>2.</b>	Technology based learning	<b>5.</b>	Summative learning
<b>3.</b>	Cooperative learning	<b>6.</b>	Differentiation

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2		Introduction to Medical Terminology,	Student attendance	quiz
2	2		Body organizations, & anatomical positions	Student attendance	quiz
3	2		Body regions, cavities, planes	Student attendance	Quiz
4	2		Directional terms, tissues, a membranes	Student attendance	Quiz
5	2		Cardiovascular system	Student attendance	Quiz
6	2		Digestive system	Student attendance	Quiz
7	2		Musculo-skeletal system	Student attendance	Quiz
8	2		Endocrine system	Student attendance	quiz
9	2		Respiratory system	Student attendance	Quiz
10	2		Urinary system	Student attendance	Quiz
11	2		Abdomen	Student attendance	Quiz
12	2		Blood	Student attendance	Quiz
13	2		Immune system	Student attendance	Quiz
14	2		Head & Neck	Student attendance	Quiz
15	2		Reproductive system	Student attendance	Quiz

### 13. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	Collins, C. Edward: A Short Course in Medical Terminology
Main References (sources)	Collins, C. Edward: A Short Course in Medical Terminology
Recommended Books & References (Scientific Journals, Reports ...)	Collins, C. Edward: A Short Course in Medical Terminology
Websites or Electronic References	Collins, C. Edward: A Short Course in Medical Terminology

## Course Description (Human Biology1)

<b>1. Course Title</b>	<b>Human Biology1</b>		
<b>2. Course Code</b>	02011103		
<b>3. Semester/Year</b>	Semester		
<b>4. Description Preparation Date</b>	2024/9/3		
<b>5. Available Attendance Form</b>	<b>Theoretical + Practical</b>		
<b>6. No. of Hours (Total)</b>	<b>(30) Theoretical + (30) Practical</b>		
<b>7. No. of Credits (Total)</b>	<b>4</b>		
<b>8. Course Administrator Name</b>	<b>Prof. Dr.Kadhim Abdulameer Muhsin Miss Abeer Saad</b>		
<b>9. E-mail</b>	<a href="mailto:Kahdm.a@albayan.edu.iq">Kahdm.a@albayan.edu.iq</a> <a href="mailto:Abeer.a@albayan.edu.iq">Abeer.a@albayan.edu.iq</a>		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Know the properties of living organisms	
	<b>A2</b>	Classification of living organisms	
	<b>A3</b>	Cellular studies	
	<b>A4</b>	Study of the genetic code	
<b>Skills</b>	<b>B1</b>	Recognizing the basic unit of life	
	<b>B2</b>	Learn about the cell life cycle	
	<b>B3</b>	Identify the body systems	
	<b>B4</b>	Identify bacteria and viruses	
<b>Values</b>	<b>C1</b>	Studies on parts of the human body	
	<b>C2</b>	Studies on the chemistry of life	
	<b>C3</b>	Studies on the properties of living organisms	
	<b>C4</b>	Study of cell divisions	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Attempting practical application of theoretical studies	<b>4.</b>	Many short-term scientific missions
<b>2.</b>	Continuously developing the curriculum	<b>5.</b>	More tests to develop students' level
<b>3.</b>	Continuous review of international educational systems	<b>6.</b>	Continuous interaction with other universities to identify differences in teaching methods

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Cell divisions (meiosis and meiosis)	Theoretical study and practical applications	Conduct quick exams
2	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Cell divisions (meiosis and meiosis)	Theoretical study and practical applications	Conduct quick exams
3	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Cell divisions (meiosis and meiosis)	Theoretical study and practical applications	Conduct quick exams
4	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Different body systems	Theoretical study and practical applications	Conduct quick exams
5	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Different body systems	Theoretical study and practical applications	Conduct quick exams
6	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Different body systems	Theoretical study and practical application	Conduct quick exams
7	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Different body systems	Theoretical study and practical application	Conduct quick exams
8	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Cell chemistry	Theoretical study and practical application	Conduct quick exams
9	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Cell chemistry	Theoretical study and practical application	Conduct quick exams
10	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Cell organelles	Theoretical study and practical application	Conduct quick exams

# جامعة البتة

11	2Th+2p	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Cell organelles	Theoretical study and practical application	Conduct quick exams
12	2Th+2p	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Bacteria	Theoretical study and practical application	Conduct quick exams
13	2Th+2p	<b>The student must be aware of information provided to him and extent of its application to reality</b>	viruses	Theoretical study and practical application	Conduct quick exams
14	2Th+2p	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Fungi	Theoretical study and practical application	Conduct quick exams
15	2Th+2p	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Principles of genetics (End of first semester)	Theoretical study and practical application	Conduct quick exams

### 13. Course Evaluation

Distribution of the grade out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, written exams, reports, etc.

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	<b>Basics of human biology</b>
Main References (sources)	<b>General references</b>
Recommended Books & References (Scientific Journals, Reports ...)	<b>International references and scientific journals</b>
Websites or Electronic References	<b>(Human biology) website</b>

## Course Description (Laboratory Instruments1)

<b>1. Course Title</b>	Laboratory Instruments 1		
<b>2. Course Code</b>	02011104		
<b>3. Semester/Year</b>	Semester		
<b>4. Description Preparation Date</b>	2024/9/1		
<b>5. Available Attendance Form</b>	Face-to-face lectures		
<b>6. No. of Hours (Total)</b>	30 Theoretical + 30 Practical		
<b>7. No. of Credits (Total)</b>	4		
<b>8. Course Administrator Name</b>	Asst. Lect. Suhaib raad qasim Miss Abeer Saad		
<b>9. E-mail</b>	<a href="mailto:Suhaib.s@albayan.edu.iq">Suhaib.s@albayan.edu.iq</a> <a href="mailto:Abeer.s@albayan.edu.iq">Abeer.s@albayan.edu.iq</a>		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Providing students with scientific knowledge about most laboratory equipment	
	<b>A2</b>	The student should know the correct ways to use laboratory equipment and mechanism of work of each device	
<b>Skills</b>	<b>B1</b>	The student applies the correct use of devices according to what he has learned	
	<b>B2</b>	Providing the student with sufficient experience to use laboratory equipment with high skill	
<b>Values</b>	<b>C1</b>	The student wants to practice scientific and logical thinking to use any laboratory device	
	<b>C2</b>	Tends to participate in teamwork as a unified team to succeed in his career	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	<b>The use of modern educational models in teaching</b>	<b>4.</b>	
<b>2.</b>	<b>Allocating a percentage of the grade for activities and participations</b>	<b>5.</b>	
<b>3.</b>	<b>Managing the lecture in a way that the student feels the importance of time</b>	<b>6.</b>	

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2Th+2p	Students' knowledge of the subject	General introduction	Face-to-face learning	Class assessment And assignments
2	2Th+2p	Teach students how to use optical microscope and the study of its parts	optical microscope	Face-to-face learning	Class assessment And assignments
3	2Th+2p	supplementary	optical microscope	Face-to-face learning	Class assessment And assignments
4	2Th+2p	supplementary	optical microscope	Face-to-face learning	Class assessment And assignments
5	2Th+2p	Teaching students the components of the Electronic microscope and its work principle	Electron microscope	Face-to-face learning	Lecture evaluation and test
6	2Th+2p	supplementary	Electron microscope	Face-to-face learning	Lecture evaluation and test
7	2Th+2p	Parts, principle of action and uses of photometer and spectrometer	photometer and spectrometer	Face-to-face learning	Lecture evaluation and test
8	2Th+2p	Spectrophotometer parts and principle, uses and care	spectrophotometer	Face-to-face learning	Lecture evaluation and test
9	2Th+2p	overview	Separation equipment	Face-to-face learning	Lecture evaluation and test
	2Th+2p				

# جامعة البتة

10		Centrifuge parts, working principle, Types and methods care	centrifuge	Face-to-face learning	Lecture evaluation and test
11	2Th+2p	supplementary	centrifuge	Face-to-face learning	Lecture evaluation and test
12	2Th+2p	working principle, uses and methods of care	electrophoresis	Face-to-face learning	Lecture evaluation and test
13	2Th+2p	supplementary	electrophoresis	Face-to-face learning	Lecture evaluation and test
14		Final exam			

### 13. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

### 14. Learning & Teaching Resources

Required textbooks  
(curricular if any)

## Course Description (Medical Ethics)

<b>1. Course Title</b>	Medical Ethics		
<b>2. Course Code</b>	0201105		
<b>3. Semester/Year</b>	Semester		
<b>4. Description Preparation Date</b>	2024/9/2		
<b>5. Available Attendance Form</b>	In-person lecture		
<b>6. No. of Hours (Total)</b>	30 Theoretical		
<b>7. No. of Credits (Total)</b>	2		
<b>8. Course Administrator Name</b>	Miss Sarah Luay Subhi		
<b>9. E-mail</b>	Sarah.l@albayan.edu.iq		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Provide the student with the appropriate method for dealing with patients, devices and equipment in the field of work	
	<b>A2</b>		
	<b>A3</b>		
	<b>A4</b>		
<b>Skills</b>	<b>B1</b>	Teaching how to deal with patients or anyone with flexibility and avoid disagreements	
	<b>B2</b>		
	<b>B3</b>		
	<b>B4</b>		
<b>Values</b>	<b>C1</b>	Participation in seminars and conferences held inside and outside the college	
	<b>C2</b>	Motivating students to expand their thinking by making posters and scientific research	
	<b>C3</b>	Develop skills to solve problems that hinder student understanding	
	<b>C4</b>	Holding periodic seminars for students to exchange information, raise the level of thinking, and enhance self-confidence	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Education through pictures presentation	<b>4.</b>	
<b>2.</b>		<b>5.</b>	
<b>3.</b>		<b>6.</b>	

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2	Principles of professional conduct	Principles of professional ethics in stages of cultural developments	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
2	2	Principles of professional conduct	,Professional behavior, its concept Its practical applications	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
3	2	Principles of professional conduct	Types of employees and ways to deal with each type	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
4	2	The basics of professional dealing	Methods that the manager must Follow it to encourage the employee, motivate him to work, and increase his productivity	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz

# جامعة البيان

					- Monthly exam.
5	2	The basics of professional dealing	Basic etiquette of the profession How to employ professional ethics from the position of guiding the individual's behavior, emotions, and ability to make the appropriate decision	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
6	2	The basics of professional dealing	Characteristics and qualities of health workers Appearance, behavior and commitment	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
7	2	The art of artistic and behavioral dealing	For behavioral pattern, characteristics of behavioral pattern	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
8	2	The art of artistic and behavioral dealing	Communication methods/linguistic and non-linguistic their definition and types	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.

# جامعة البيان

9	2	The art of artistic and behavioral dealing	Exam	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
10	2	Professional conduct in medical fields	The art of listening and listening	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
11	2	Professional conduct in medical fields	Behavioral trends and tendencies Values, customs and traditions	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
12	2	Professional conduct in medical fields	Dealing with the patient: Receiving and dealing with the patient, maintaining professional secrets	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
13	2	Maintaining professional behavior in crisis	Determine and maintain appointments and requirements on the patients needs	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic

# جامعة البيان

					- The Quiz - Monthly exam.
14	2	Maintaining professional behavior in crisis	Behavioral handling of medical devices and equipment	Theoretical 2	-Through questions during the lecture -The student participation in explaining a topic - The Quiz - Monthly exam.
15	2	Maintaining professional behavior in crisis	Occupational safety and prevention of work risks	Theoretical 2	-Through questions during the lecture -The student participation in explaining a topic - The Quiz - Monthly exam.

## Course Description (Human Rights and Democracy)

<b>1. Course Title</b>		<b>Human Rights and Democracy</b>	
<b>2. Course Code</b>		<b>02011107</b>	
<b>3. Semester/Year</b>		First Semester	
<b>4. Description Preparation Date</b>		2024/9/7	
<b>5. Available Attendance Form</b>		<b>Theoretical</b>	
<b>6. No. of Hours (Total)</b>		<b>30 hours ( Theoretical )</b>	
<b>7. No. of Credits (Total)</b>		<b>2</b>	
<b>8. Course Administrator Name</b>		<b>Prof.Dr. Hussam Hameed Husham</b>	
<b>9. E-mail</b>			
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Learn about human rights and justice and resist all forms of abuse and exploitation	
	<b>A2</b>	At the international level, democracy and human rights are an important topic, which is why conferences are held The agreements were concluded to protect human rights	
	<b>A3</b>		
	<b>A4</b>		
<b>Skills</b>	<b>B1</b>	The student will be familiar with the concepts of freedom, justice, and equality in rights and duties	
	<b>B2</b>	Practicing peaceful social life thanks to the rule of law and equality of citizens rights and practices	
	<b>B3</b>		
	<b>B4</b>		
<b>Values</b>	<b>C1</b>	Motivating the positive impact of applying democracy in its correct form, as applied to peoples who have practiced democracy for decades	
	<b>C2</b>	That the human being is the ultimate goal of the ruling regimes and the sense of this through dealing with Various official institutions	
	<b>C3</b>		
	<b>C4</b>		
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	<b>Traditional lectures using a projector</b>	<b>4.</b>	

# جامعة البتة

2.	Establishing dialogues with students	5.	
3.		6.	

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2	Cognitive and qualifying	Learn about human democracy In general	Lectures and discussions	Theoretical exams
2	2	Cognitive and qualifying	Definition of right, right and man, elements of right Pillars of truth	Lectures and discussions	Theoretical exams
3	2	Cognitive and qualifying	The difference between right and freedom, the difference between rights Human and public freedoms	Lectures and discussions	Theoretical exams
4	2	Cognitive and qualifying	Stages of human rights Development Human rights in Mesopotamia Civilization	Lectures and discussions	Theoretical exams
5	2	Cognitive and qualifying	Human rights resources International source for human rights	Lectures and discussions	Theoretical exams
6	2	Cognitive and qualifying	National Source for Human Rights	Lectures and discussions	Theoretical exams
7	2	Cognitive and qualifying	Causes of human rights violations	Lectures and discussions	Theoretical exams
8	2	Cognitive and qualifying	Mechanisms for international human rights protection	Lectures and discussions	Theoretical exams
9	2	Cognitive and qualifying	Introduction to the concept of democracy	Lectures and discussions	Theoretical exams
10	2	Cognitive and qualifying	Definition of democracy and the idea of its historical development	Lectures and discussions	Theoretical exams
11	2	Cognitive and qualifying	Democracy in Mesopotamia civilization	Lectures and discussions	Theoretical exams

# جامعة البيان

			The difference between freedom and democracy		
12	2	Cognitive and qualifying	Forms and images of democracy	Lectures and discussions	Theoretical exams
13	2	Cognitive and qualifying	Popular referendum, its types, democracy Consociationalism, liberal democracy	Lectures and discussions	Theoretical exams
14	2	Cognitive and qualifying	Conditions and components of the democratic system, components Key elements of democracy	Lectures and discussions	Theoretical exams
15	2	Cognitive and qualifying	General Review	Lectures and discussions	Theoretical exams

### 13. Course Evaluation

Distribution of the grade out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, written exams, reports, etc.

15	2th+2p	Systematic anatomy understanding	Reproductive system	Students attendance	Quiz

### 13. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	<b>Netter's atlas of human anatomy</b>
Main References (sources)	<b>Netter's atlas of human anatomy</b>
Recommended Books & References (Scientific Journals, Reports ...)	<b>Netter's atlas of human anatomy</b>
Websites or Electronic References	<b>Mobile free app's on human anatomy</b>

## Course Description (Human Biology)

<b>1. Course Title</b>	<b>Human Biology</b>		
<b>2. Course Code</b>	02011203		
<b>3. Semester/Year</b>	Semester		
<b>4. Description Preparation Date</b>	2024/9/7		
<b>5. Available Attendance Form</b>	<b>Theoretical + Practical</b>		
<b>6. No. of Hours (Total)</b>	<b>(30) Theoretical + (30) Practical</b>		
<b>7. No. of Credits (Total)</b>	<b>4</b>		
<b>8. Course Administrator Name</b>	<b>Prof. Dr.Kadhim Abdulameer Muhsin Miss Abeer Saad</b>		
<b>9. E-mail</b>	<a href="mailto:Kahdm.a@albayan.edu.iq">Kahdm.a@albayan.edu.iq</a> <a href="mailto:Abeer.a@albayan.edu.iq">Abeer.a@albayan.edu.iq</a>		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Know the properties of living organisms	
	<b>A2</b>	Classification of living organisms	
	<b>A3</b>	Cellular studies	
	<b>A4</b>	Study of the genetic code	
<b>Skills</b>	<b>B1</b>	Recognizing the basic unit of life	
	<b>B2</b>	Learn about the cell life cycle	
	<b>B3</b>	Identify the body systems	
	<b>B4</b>	Identify bacteria and viruses	
<b>Values</b>	<b>C1</b>	Studies on parts of the human body	
	<b>C2</b>	Studies on the chemistry of life	
	<b>C3</b>	Studies on the properties of living organisms	
	<b>C4</b>	Study of cell divisions	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Attempting practical application of theoretical studies	<b>4.</b>	Many short-term scientific missions
<b>2.</b>	Continuously developing the curriculum	<b>5.</b>	More tests to develop students' level
<b>3.</b>	Continuous review of international educational systems	<b>6.</b>	Continuous interaction with other universities to identify differences in teaching methods

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Harmful bacterial activities	Theoretical study and practical application	Conduct quick exams
2	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Harmful bacterial activities	Theoretical study and practical application	Conduct quick exams
3	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Algae	Theoretical study and practical application	Conduct quick exams
4	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Primitive animals	Theoretical study and practical application	Conduct quick exams
5	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	amoeba	Theoretical study and practical application	Conduct quick exams
6	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Fungi and their harmful effects	Theoretical study and practical application	Conduct quick exams
7	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Fungi and their harmful effects	Theoretical study and practical application	Conduct quick exams
8	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Yeasts	Theoretical study and practical application	Conduct quick exams
9	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Vertebrates and invertebrates	Theoretical study and practical application	Conduct quick exams
10	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Vertebrates and invertebrates	Theoretical study and practical application	Conduct quick exams

# جامعة البتة

11	2Th+2p	<b>The student must be aware of information provided to him and extent of its application to reality</b>	The human body's own defenses	Theoretical study and practical application	Conduct quick exams
12	2Th+2p	<b>The student must be aware of information provided to him and extent of its application to reality</b>	The human body's own defenses	Theoretical study and practical application	Conduct quick exams
13	2Th+2p	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Worms	Theoretical study and practical application	Conduct quick exams
14	2Th+2p	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Worms	Theoretical study and practical application	Conduct quick exams
15	2Th+2p	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Scientific steps	Theoretical study and practical application	Conduct quick exams

### 13. Course Evaluation

Distribution of the grade out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, written exams, reports, etc.

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	<b>Basics of human biology</b>
Main References (sources)	<b>General references</b>
Recommended Books & References (Scientific Journals, Reports ...)	<b>International references and scientific journals</b>
Websites or Electronic References	<b>(Human biology) website</b>

## Course Description (Laboratory Instruments2)

<b>1. Course Title</b>	Laboratory Instruments2		
<b>2. Course Code</b>	02011204		
<b>3. Semester/Year</b>	Semester		
<b>4. Description Preparation Date</b>	2024/9/10		
<b>5. Available Attendance Form</b>	Face-to-face lectures		
<b>6. No. of Hours (Total)</b>	30 Theoretical + 30 Practical		
<b>7. No. of Credits (Total)</b>	4		
<b>8. Course Administrator Name</b>	Asst. Lect. Suhaib raad qasim Miss Abeer Saad		
<b>9. E-mail</b>	<a href="mailto:Suhaib.s@albayan.edu.iq">Suhaib.s@albayan.edu.iq</a> <a href="mailto:Abeer.s@albayan.edu.iq">Abeer.s@albayan.edu.iq</a>		
<b>10. Course Objectives</b>			
Knowledge	A1	Providing students with scientific knowledge about most laboratory equipment	
	A2	The student should know the correct ways to use laboratory equipment and mechanism of work of each device	
Skills	B1	The student applies the correct use of devices according to what he has learned	
	B2	Providing the student with sufficient experience to use laboratory equipment with high skill	
Values	C1	The student wants to practice scientific and logical thinking to use any laboratory device	
	C2	Tends to participate in teamwork as a unified team to succeed in his career	
<b>11. Teaching and Learning Strategies</b>			
1.	<b>The use of modern educational models in teaching</b>	4.	
2.	<b>Allocating a percentage of the grade for activities and participations</b>	5.	
3.	<b>Managing the lecture in a way that the student feels the importance of time</b>	6.	

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2Th+2p	Educating the student to provide free local work environment From dust and sterile	Microbial safety cabinet, Type of safety cabinet, Principle and uses	Face-to-face learning	Class assessment And assignments
2	2Th+2p	Teach students how to use a device that maintains ideal conditions such as temperature, humidity, carbon dioxide and oxygen content in the atmosphere inside	Incubator, types, principle and uses	Face-to-face learning	Class assessment And assignments
3	2Th+2p	Teaching the student how to use pipette as a tool Important medical laboratories because allows the measurement and transport of liquids with high accuracy, as well as the role the burner in facilitating the combustion process, producing many specifics chemical reactions, in addition to Sterilization of laboratory instruments	Pipettes, Bunsen burner	Face-to-face learning	Class assessment And assignments

# جامعة البتاني

4	2Th+2p	Study of the devices used to incubate samples in water at constant temperature for a period time Long and sterilization of glass and metal equipment Used the laboratory	Water bath and dry oven	Face-to-face learning	Class assessment And assignments
5	2Th+2p	Teach students a special device For sterilizing water-containing materials, which cannot be Sterilized Using dry heat	Autoclave, principle and uses, care and safety	Face-to-face learning	Lecture evaluation and test
6	2Th+2p	supplementary	Autoclave, principle and uses, care and safety	Face-to-face learning	Lecture evaluation and test
7	2Th+2p	Detection of bacterial and viral diseases and knowledge of the sequence of nitrogenous bases, mutations, identification Genetic identity and proof of paternity	Polymerase Chain Reaction Machine	Face-to-face learning	Lecture evaluation and test
8	2Th+2p	Study of the analysis of sequences acid base sequences nuclear detect the presence of any gene mutations or Defect in the sequences	DNA sequencing machine	Face-to-face learning	Lecture evaluation and test
9	2Th+2p	Used to know DNA bands	UV trans illuminator	Face-to-face learning	Lecture evaluation and test
	2Th+2p				

# جامعة البتة

10		Knowing the weights of the materials to be prepared in addition to preparing the text sections to study the damage in that fabric.	Balances, microtomes And principle and uses	Face-to-face learning	Lecture evaluation and test
11	2Th+2p	supplementary	supplementary	Face-to-face learning	Lecture evaluation and test
12	2Th+2p	supplementary	supplementary	Face-to-face learning	Lecture evaluation and test
13		Final exam		Face-to-face learning	Lecture evaluation and test

### 13. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

## Course Description (Medical Bacteriology 1 )

<b>1. Course Title</b>	<b>Medical Bacteriology 1</b>	
<b>2. Course Code</b>	<b>02012101</b>	
<b>3. Semester/Year</b>	<b>Semester</b>	
<b>4. Description Preparation Date</b>	<b>2024/9/5</b>	
<b>5. Available Attendance Form</b>	<b>Lectures ( Theory , Lab Practicle)</b>	
<b>6. No. of Hours (Total)</b>	<b>60 hours ( 30 Theretical + 30 Practical )</b>	
<b>7. No. of Credits (Total)</b>	<b>4</b>	
<b>8. Course Administrator Name</b>	<b>Lecture.Dr. Mytham Jabouri Abdull Hussein Dalal Arif Salman</b>	
<b>9. E-mail</b>	<b><a href="mailto:mytham.j@albayan.edu.iq">mytham.j@albayan.edu.iq</a> <a href="mailto:dalal.a@albayan.edu.iq">dalal.a@albayan.edu.iq</a></b>	
<b>10. Course Objectives</b>		
<b>Knowledge</b>	<b>A1</b>	<b>The student understands the meaning of medical bacteria</b>
	<b>A2</b>	<b>The student should know the importance of clinical diagnosis of medical bacteria</b>
	<b>A3</b>	<b>The student will understand how to stain bacteria using the Gram stain technique so that their appearance can be seen under an optical microscope.</b>
	<b>A4</b>	<b>The student should realize the importance of performing various biochemical tests that help in diagnosing bacteria</b>
<b>Skills</b>	<b>B1</b>	<b>The student will be able to use modern laboratory methods to count colonies and growing bacterial cells</b>
	<b>B2</b>	<b>The student will understand how to use modern technologies to identify bacteria and determine the optimal treatment against the bacteria</b>
	<b>B3</b>	<b>The student can distinguish between visual and microscopic diagnosis of bacterial cells.</b>
	<b>B4</b>	<b>The student can use the compound light microscope and how to use each of its parts in detail</b>
<b>Values</b>	<b>C1</b>	<b>The student can distinguish between the main forms of bacteria through the staining techniques used</b>
	<b>C2</b>	<b>The student can differentiate between ancient and modern methods for identifying the bacteria or disease-causing agent.</b>
	<b>C3</b>	<b>The student can explain how to read the results of sensitivity or resistance of bacteria to antibiotics.</b>
	<b>C4</b>	<b>The student can determine the optimal method for counting live bacterial cells</b>

	growing on agricultural media.	
<b>11. Teaching and Learning Strategies</b>		
1.	The student can know the type of bacteria by seeing the shape and appearance of the bacterial colony.	4. cells The student is able to choose the best method to determine the most appropriate antibiotic against bacteria
2.	The student can perform tests to diagnose each type of medical bacteria.	5. Student groups, scientific trips, and holding workshops, seminars, and courses.
3.	The student can name bacteria by identifying the type and gender of bacteria	6. Scientific reports, oral exams, surprise written exams, and direct questions.

## 12. The Structure of the Course

Week	Hours		RLOs	Topic/Subject Name	Learning Method	Evaluation Method
	Theory	Lab				
1	2	2	Provides an introductory overview of medical bacteria	Introduction of Bacteria	Method of giving lectures The practical side	Written tests Oral exams
2	2	2	Knowledge of sterilization and disinfection methods	Sterilization and Disinfection	Method of giving lectures The practical side	Written tests
3	2	2	Knowledge of the structures and functions of bacterial components	Structure and function of bacterial components	Method of giving lectures The practical side	Oral exams
4	2	2	Bacteria cultivation and types of agricultural media	Culturing of bacteria and media types	Method of giving lectures The practical side	Written tests
5	2	2	Knowledge of bacterial physiology and cellular metabolism	Bacterial Physiology (Bacterial metabolism).	Method of giving lectures The practical side	Oral exams
6	2	2	Bacterial genetics	Bacterial genetics.	E-Learning Discussion method	Written tests
7	2	2	Virulence factors of	Microbial virulence	Method of giving	Oral exams

# جامعة البتة

			<b>bacteria, pathogenicity and infection</b>	<b>factors and pathogenesis of bacterial infection.</b>	<b>lectures Discussion method</b>	
<b>8</b>	<b>2</b>	<b>2</b>	<b>Chemotherapy and antibiotic resistance</b>	<b>Chemotherapy and antibiotic resistance.</b>	<b>Method of giving lectures The practical side</b>	<b>Written tests</b>
<b>9</b>	<b>2</b>	<b>2</b>	<b>Vaccination and vaccination</b>	<b>Vaccination.</b>	<b>Method of giving lectures The practical side</b>	<b>Oral exams</b>
<b>10</b>	<b>2</b>	<b>2</b>	<b>Gram-positive spherical bacteria</b>	<b>Gram positive cocci</b>	<b>Method of giving lectures The practical side</b>	<b>Written tests</b>
<b>11</b>	<b>2</b>	<b>2</b>	<b>Study of Staphylococcus aureus, Streptococcus streptococci and Enterococcus</b>	<b>Staphylococcus, Streptococcus and enterococcus.</b>	<b>Method of giving lectures The practical side</b>	<b>Oral exams</b>
<b>12</b>	<b>2</b>	<b>2</b>	<b>Study of spore-forming Gram-positive bacillus bacteria</b>	<b>Gram positive spore forming bacilli</b>	<b>Method of giving lectures The practical side</b>	<b>Written tests Oral exams</b>
<b>13</b>	<b>2</b>	<b>2</b>	<b>Conduct a bacterial sensitivity test to antibiotics</b>	<b>Microbial sensitivity to antibiotic.</b>	<b>Method of giving lectures The practical side</b>	<b>Written tests Oral exams</b>
<b>14</b>	<b>2</b>	<b>2</b>	<b>Study of non-spore- forming Gram-positive bacillus bacteria</b>	<b>Gram positive non spore forming bacilli</b>	<b>Method of giving lectures The practical side</b>	<b>Written tests Oral exams</b>
<b>15</b>	<b>2</b>	<b>2</b>	<b>Study of aerobic bacteria such as listeria and diphtheria</b>	<b>Listeria and Corynebacterium</b>	<b>Method of giving lectures The practical side</b>	<b>Written tests Oral exams</b>

### 13. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

### 14. Learning & Teaching Resources

<b>Required textbooks (curricular if any)</b>	<b>Foundations in Microbiology 4th Edition, Todar's Online Textbook of Bacteriology Dedication to Hans Zinsser 2005.</b>
<b>Main References (sources)</b>	<b>Bailey &amp; Scott's Diagnostic Microbiology and Jawetz.</b>

## Course Description (Biochemistry1)

1. Course Title	Biochemistry1	
2. Course Code	02012102	
3. Semester/Year	Semester	
4. Description Preparation Date	2024/9/7	
5. Available Attendance Form	Official attendance time (morning and evening).	
6. No. of Hours (Total)	30 hours for the theoretical aspect and 30 hours for the practical aspect	
7. No. of Credits (Total)	4 units	
8. Course Administrator Name	Dr.Mustafa Saleem Shareef Lec.Hiba Khalid	
9. E-mail	<a href="mailto:Mustafa.s@albayan.edu.iq">Mustafa.s@albayan.edu.iq</a> <a href="mailto:Hiba.k@albayan.edu.iq">Hiba.k@albayan.edu.iq</a>	
<b>10. Course Objectives</b>		
Knowledge	A1	Teaching students basic scientific concepts of Biochemistry topics with focus on clinical chemistry and metabolisms.
	A2	Studying biochemistry, metabolisms in illness and recovery
	A3	Teaching metabolisms and obesity and stress and exercises.
	A4	Teaching biochemistry of nutrition's and dietary.
Skills	B1	Scientific discussion
	B2	Weekly exams
	B3	Monthly tests
	B4	Practical examinations
Values	C1	Participation in the classroom
	C2	Provide activities

	<b>C3</b>	Semester and final tests and activities	
	<b>C4</b>	Self-learning, discussion panels	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Active participation in the classroom is evidence of the student's commitment and responsibility		<b>4.</b> Developing the student's ability to deal with multiple tasks.
<b>2.</b>	Adherence to the specified deadline for submitting assignments and research.		<b>5.</b> Active participation in the classroom is evidence of the student's commitment and responsibility
<b>3.</b>	Semester and final exams express commitment and cognitive and theoretical understanding.		<b>6.</b> Developing the student's ability to deal with technical means

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2 theory 2 practi.	The way out in theory The way out in practice	-Introduction to Biochemistry -Specimen Collection [blood, urine, CSF]	Presence presence	Daily, monthly and annual written exam
2	2 theory 2 practi.	The way out in theory The way out in practice	-General Metabolisms -Specimen Collection [blood, urine, CSF]	presence	Daily, monthly and annual written exam
3	2 theory 2 practi.	The way out in theory The way out in practice	-Metabolisms in illness, recovery -Specimen Transport and Specimen Processing	presence	Daily, monthly and annual written exam
4	2 theory 2 practi.	The way out in theory The way out in practice	-Nutrition biochemistry, dietary -Specimen Transport and Specimen Processing	presence	Daily, monthly and annual written exam
5	2 theory 2 practi.	The way out in theory The way out in practice	-Biochemistry, prevention medicine -Blood collection techniques, Anticoagulant, Separation of serum	presence	Daily, monthly and annual written exam
6	2 theory 2 practi.	The way out in theory The way out in practice	-Biochemical bases in disease -Principle of instrumentation [photometer, colorimetry and spectrophotometry]	presence	Daily, monthly and annual written exam
7	2	The way out in theory	-Biochemistry at water pH	presence	Daily, monthly and

# جامعة البيان

	theory 2 practi.	The way out in practice	-Carbohydrates tests		annual written exam
8	2 theory 2 practi.	The way out in theory The way out in practice	-Review and exam -Molish test, Iodin test, Benedicts test and Barfoed test	presence	Daily, monthly and annual written exam
9	2 theory 2 practi.	The way out in theory The way out in practice	-Biochemistry and electrolytes -Seliwanoffs test, Osazone test, Athrone and Dinitrosalicylic acid method	presence	Daily, monthly and annual written exam
10	2 theory 2 practi.	The way out in theory The way out in practice	-Metabolism of carbohydrates -Roes method, Fehling test, Somogyi- Nelson method and Mucic acid test	presence	Daily, monthly and annual written exam
11	2 theory 2 practi.	The way out in theory The way out in practice	-Metabolisms pathways -Amino acid tests	presence	Daily, monthly and annual written exam
12	2 theory 2 practi.	The way out in theory The way out in practice	-ATP synthesis -Ninhydrin test, Isatin test and Xanthoprotic test	presence	Daily, monthly and annual written exam
13	2 theory 2 practi.	The way out in theory The way out in practice	-Lipids biosynthesis -Paulys diazo test, Sakaguchi test Millon test	presence	Daily, monthly and annual written exam
14	2 theory 2 practi.	The way out in theory The way out in practice	-Lipids oxidations -Paulys diazo test, Sakaguchi test Millon test	presence	Daily, monthly and annual written exam
15	2 theory 2 practi.	The way out in theory The way out in practice	-Metabolisms of glycerol -Hopkins-Cole test, Lead acetate test	presence	Daily, monthly and annual written exam

### 13. Course Evaluation

Distribution of the grade out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, written exams, reports, etc.

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	General biochemistry Geoffrey Beckett Text book of biochemistry, 2016
Main References (sources)	Articles
Recommended Books & References (Scientific Journals, Reports ...)	Hepers illustrated. Biochemistry, medical book.
Websites or Electronic References	Wikipedia, research gate, google scholar, and many

## Course Description (Human physiology 1)

<b>1. Course Title</b>		<b>Human physiology 1</b>
<b>2. Course Code</b>		<b>02012103</b>
<b>3. Semester/Year</b>		Semester
<b>4. Description Preparation Date</b>		2024/9/1
<b>5. Available Attendance Form</b>		attendance

<b>9. E-mail</b>	<a href="mailto:bahaafakhri1961@yahoo.com">bahaafakhri1961@yahoo.com</a> <a href="mailto:raghdanaser.m@gmail.com">raghdanaser.m@gmail.com</a>		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Provide the students with basic knowledge about the structure of the human cells, tissues and extracellular matrices surrounding them: epithelium, connective tissues, including blood, bone cartilage, muscles, and nerves.	
	<b>A2</b>	Learn the student the microscopic structure of the different human tissues.	
	<b>A3</b>	Facilitate the integration of Histology with gross Anatomy, Physiology and Biochemistry.	
	<b>A4</b>	Acquire student the skills of using the microscope and identifying the normal structures.	
<b>Skills</b>	<b>B1</b>	Describe the normal ultra-structure of the cell.	
	<b>B2</b>	Describe the organization and components of the human body.	
	<b>B3</b>	Correlate between the predominance of a cell organelle and the function of the cell.	
	<b>B4</b>	Correlate between histological structure & function of different organs of all systems.	
<b>Values</b>	<b>C1</b>	Describe the normal ultra-structure of the cell.	
	<b>C2</b>	Describe the organization and components of the human body.	
	<b>C3</b>	Correlate between the predominance of a cell organelle and the function of the cell.	
	<b>C4</b>	Correlate between histological structure & function of different organs of all systems.	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Use professionally the light microscope to obtain information from histological slides in the laboratory.	<b>4.</b>	
<b>2.</b>	Identify and select various types of special stains for various tissues.	<b>5.</b>	
<b>3.</b>	Work constructively in a group sharing his/her colleagues in the resources available.	<b>6.</b>	

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Introduction and overview methods used in histology, Classification Histology, Tissue preparation	Data show and white board	Quiz/homework
2	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Overview of Cell structure types	Data show and white board	Quiz/homework
3	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Tissues: Concept and classifications of primary tissues	Data show and white board	Quiz/homework
4	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Epithelial tissue: Simple Ep. Compound Ep. T.	Data show and white board	Quiz/homework
5	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	The glandular Tissues (The Glands)	Data show and white board	Quiz/homework
6	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Connective and Supportive Tissue: Embryonic and adult C.T.	Data show and white board	Quiz/homework
7	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Connective Tissue proper (General C.T.)	Data show and white board	Quiz/homework
8	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Cartilage, Histogenesis, Growth and repair of cartilage	Data show and white board	Quiz/homework
9	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Bone & Histogenesis of Bone	Data show and white board	Quiz/homework

# جامعة البيان

10	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	The Blood	Data show and white board	Quiz/homework
11	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	The haemopoietic organ (bone marrow), Formation blood cells.	Data show and white board	Quiz/homework
12	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Muscular tissue	Data show and white board	Quiz/homework
13	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Nervous tissue: Overview nervous system (CNS & PNS)	Data show and white board	Quiz/homework
14	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Nervous system: the Nerve cells (neurons) and their classification	Data show and white board	Quiz/homework
15	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Supporting cells of nervous system	Data show and white board	Quiz/homework

**13. Course Evaluation**

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

**14. Learning & Teaching Resources**

Required textbooks  
(curricular if any)

## Course Description (Molecular biology)

<b>1. Course Title</b>	<b>Molecular biology</b>		
<b>2. Course Code</b>	<b>02012105</b>		
<b>3. Semester/Year</b>	Semester		
<b>4. Description Preparation Date</b>	2024/9/2		
<b>5. Available Attendance Form</b>	Face-to-face lectures		
<b>6. No. of Hours (Total)</b>	60 hours		
<b>7. No. of Credits (Total)</b>	4		
<b>8. Course Administrator Name</b>	Dr.Osama Abdulmunim ghari Suhaib raad qasim		
<b>9. E-mail</b>	<a href="mailto:Suhaib.s@albayan.edu.iq">Suhaib.s@albayan.edu.iq</a> <a href="mailto:Osama.a@albayan.edu.iq">Osama.a@albayan.edu.iq</a>		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	The student should know the interactions between molecules such as DNA, RNA and protein.	
	<b>A2</b>		
<b>Skills</b>	<b>B1</b>	The student has the logical thinking skills to study the living cell at the molecular level	
<b>Values</b>	<b>C1</b>	The student's discovery of what is happening in his environment and the necessary knowledge in the fields of agriculture, medicine and genetic engineering	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	<b>The use of modern educational models in teaching</b>	<b>4.</b>	
<b>2.</b>	<b>Allocating a percentage of the grade for activities and participations</b>	<b>5.</b>	
<b>3.</b>	<b>Managing the lecture in a way that the student feels the importance of time</b>	<b>6.</b>	

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2th+2 p	Introducing students to molecular biology	Molecular biology	Face-to-face learning	Class assessment And assignments
2	2th+2 p	Teaching the student all materials and tools And the devices to be used in the laboratory Molecular biology	Laboratory Instruments Materials	Face-to-face learning	Class assessment And assignments
3	2th+2 p	supplementary	Laboratory Instruments Materials	Face-to-face learning	Class assessment And assignments
4	2th+2 p	Introducing students to the approved methods In the preparation of solutions used in Biological Laboratories	Preparation solutions	Face-to-face learning	Class assessment And assignments
5	2th+2 p	supplementary	Preparation solutions	Face-to-face learning	Lecture evaluation and test
6	2th+2 p	Teaching the student physical and chemical methods To extract DNA from any kind of Cells	DNA Extraction	Face-to-face learning	Lecture evaluation and test
7	2th+2 p	supplementary	DNA Extraction	Face-to-face learning	Lecture evaluation and test

# جامعة البتة

8	2th+2 p	Study of methods of extracting plasmids from Bacterial cells	Plasmids extraction	Face-to-face learning	Lecture evaluation and test
9	2th+2 p	supplementary	Plasmids extraction	Face-to-face learning	Lecture evaluation and test
10	2th+2 p	working principle, uses and methods of care	electrophoresis	Face-to-face learning	Lecture evaluation and test
11	2th+2 p	supplementary	electrophoresis	Face-to-face learning	Lecture evaluation and test
12	2th+2 p	Introducing the student to the ways to multiply the DNA to facilitate the study grammar Nitrogen	Polymerase Chain Reaction	Face-to-face learning	Lecture evaluation and test
13	2th+2 p	supplementary	Polymerase Chain Reaction	Face-to-face learning	Lecture evaluation and test
14		Final exam

## Course Description (Medical Parasitology 1)

<b>1. Course Title</b>	Medical Parasitology 1		
<b>2. Course Code</b>	02012106		
<b>3. Semester/Year</b>	Semester		
<b>4. Description Preparation Date</b>	2024/9/10		
<b>5. Available Attendance Form</b>	In-person lecture+ online		
<b>6. No. of Hours (Total)</b>	60 (30 Theoretical + 30 Practical )		
<b>7. No. of Credits (Total)</b>	4		
<b>8. Course Administrator Name</b>	Dr. safa tawfeeq whqeeb Hiyder Mussaed Mohammed		
<b>9. E-mail</b>	safa.tawfeeq@albaya.edu.iq		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Knowledge of the parasite's appearance, life cycle, and pathogenesis.	
	<b>A2</b>	Diagnose all parasites of medical importance.	
	<b>A3</b>	Identify the epidemiology of parasites with special reference to those endemic to Iraq.	
	<b>A4</b>	Control and prevent the spread of disease	
<b>Skills</b>	<b>B1</b>	Teaching the use of a microscope and diagnosing the stages of parasites	
	<b>B2</b>	Teaching modern techniques in diagnosis	
	<b>B3</b>		
	<b>B4</b>		
<b>Values</b>	<b>C1</b>	Participation in seminars and conferences held inside and outside the college	
	<b>C2</b>	Motivating students to expand their thinking by making posters and scientific research	
	<b>C3</b>	Develop skills to solve problems that hinder student understanding	
	<b>C4</b>	Holding periodic seminars for students to exchange information, raise the level of thinking, and enhance self-confidence	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Education through pictures presentation	<b>4.</b>	
<b>2.</b>	Education through video presentation	<b>5.</b>	
<b>3.</b>	Education via online	<b>6.</b>	

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2th+2p	Medical Parasitology 1	General Introduction: Introduction; Parasite Host; Zoonosis; Host-parasite Relationships; Life Cycle of Parasites; Sources of Infection; Modes of Infection; Pathogenesis; Immunity; Parasitic Infection; Laboratory Diagnosis	Theoretical and practical	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
2	2th+2p	Medical Parasitology 1	Protozoa General Features ; Structure and Reproduction ; Life Cycle ; Classification of Protozoa ; Phylum Sarcomastigophora; Phylum Apicomplexa; Phylum Ciliophora; Phylum Microspora	Theoretical and practical	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
3	2th+2p	Medical Parasitology 1	Sarcodina, (Amoebae) Entamoeba histolytica; History and Distribution; Morphology; Life Cycle; Pathogenesis; Clinical Features; Extraintestinal Amoebiasis; Laboratory Diagnosis; Immunity; Treatment	Theoretical and practical	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
4	2th+2p	Medical Parasitology 1	Entamoeba Coli , Entamoeba Gingivae, Endolimax nana 24;; Pathogenic Free-Living Amoebae; naegleria Fowleri; History and Distribution 26; Morphology; Life Cycle; Pathogenicity and Clinical Features; Laboratory Diagnosis; Treatment	Theoretical and practical	-Through questions during the lecture -The student participate in explaining a topic - The Quiz

					- Monthly exam.
5	2th+2p	Medical Parasitology 1	Intestinal, Oral, and Genital Flagellates Giardia Lamblia; History and Distribution Habitat; Morphology; Life Cycle; Pathogenicity Clinical Features; Laboratory Diagnosis; Treatment	Theoretical and practical	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
6	2th+2p	Medical Parasitology 1	Genus Trichomonas. T. vaginalis/ urogenital flagellate. T. hominis T. tenax Biology , medical importance and Lab. Diagnosis of each species	Theoretical and practical	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
7	2th+2p	Medical Parasitology 1	Heamo- flagellates( blood & tissue flagellates), general characters. Developmental stages in the vertebrate & invertebrate hosts	Theoretical and practical	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
8	2th+2p	Medical Parasitology 1	. Genus leishmania , species of leishmania biology, vector, medical importance each species, types of leishmaniasis , life cycle , Lab. Diagnosis, including immunological tests	Theoretical and practical	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
9	2th+2p	Medical Parasitology 1	Genus Trypanosoma, species of trypanosomes biology , vector, medical importance of each species, forms of parasite, life cycle, Lab. Diagnosis	Theoretical and practical	-Through questions during the lecture

# جامعة البتة

					-The student participate in explaining a topic - The Quiz - Monthly exam.
10	2th+2p	Medical Parasitology 1	Ciliophora: <i>Blantidium coli</i> , Biology, medical importance, Lab. Diagnosis. Apicomplexans: General character. Genus <i>Toxoplasma</i> , <i>T. gondii</i> , Biology, medical importance, acquired congenital toxoplasmosis. Life cycle, role of domestic animals in the transmission of disease. Lab. Diagnosis.	Theoretical and practical	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
11	2th+2p	Medical Parasitology 1	Genus <i>Plasmodium</i> . Introduction to malarial parasites, malarial paroxysm, general life cycle of the <i>Plasmodium</i> , species of <i>Plasmodium</i> .	Theoretical and practical	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
12	2th+2p	Medical Parasitology 1	<i>P. falciparum</i> , <i>P. vivax</i> , Disease, pathology, medical importance, distribution, main differences during life cycle.	Theoretical and practical	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
13	2th+2p	Medical Parasitology 1	<i>P. ovale</i> , <i>P. malariae</i> Disease, pathology, medical importance, distribution, main differences during life cycle.	Theoretical and practical	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.

# جامعة البتة

14	2th+2p	Medical Parasitology 1	General discussion on malarial para ,epidemiology, methods of diagnosis. Tim take clinical samples. Blood films	Theoretical and practical	-Through questions during the lecture -The student participat in explaining a topic - The Quiz - Monthly exam.
15	2th+2p	Medical Parasitology 1	Isopora, pathology, med importance,Lab.Dianosis. Sarcocystis spec pathology , medical importance,Lab diagno 14 Cryptosporidiadse Genus cryptosporidi species belong the genus, biology, patholo epidemiology,Lab.diagnosis.	Theoretical and practical	-Through questions during the lecture -The student participat in explaining a topic - The Quiz - Monthly exam.

### 13. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	<b>Paniker's Textbook of Medical Parasitology</b>
Main References (sources)	<b>Paniker's Textbook of Medical Parasitology</b>
Recommended Books & References (Scientific Journals, Reports ...)	<b>Evolutionary Parasitology</b>  Textbook of Medical Parasitology

## Course Description (Medical Bacteriology 2 )

<b>1. Course Title</b>		<b>Medical Bacteriology 2</b>
<b>2. Course Code</b>		<b>02012201</b>
<b>3. Semester/Year</b>		<b>Semester</b>
<b>4. Description Preparation Date</b>		<b>2024/9/9</b>
<b>5. Available Attendance Form</b>		<b>Lectures ( Theory , Lab Practicle)</b>
<b>6. No. of Hours (Total)</b>		<b>60 hours ( 30 Theoretical + 30 Practical )</b>
<b>7. No. of Credits (Total)</b>		<b>4</b>
<b>8. Course Administrator Name</b>		<b>Lecture.Dr. Mytham Jabouri Abdull Hussein Dalal Arif Salman</b>
<b>9. E-mail</b>		<b>mytham.j@albayan.edu.iq dalal.a@albayn.edu.iq</b>
<b>10. Course Objectives</b>		
<b>Knowledge</b>	<b>A1</b>	<b>The student understands the meaning of medical bacteria</b>
	<b>A2</b>	<b>The student should know the importance of clinical diagnosis of medical bacteria</b>
	<b>A3</b>	<b>The student will distinguish between different types of bacteria based on different diagnostic methods</b>
	<b>A4</b>	<b>The student learns how to grow bacteria on different agricultural media using cultivation techniques</b>
<b>Skills</b>	<b>B1</b>	<b>The student will understand how to stain bacteria using the Gram stain technique so that their appearance can be seen under an optical microscope</b>
	<b>B2</b>	<b>The student should realize the importance of performing various biochemical tests that help in diagnosing bacteria</b>
	<b>B3</b>	<b>The student will understand how to test the sensitivity of bacteria to antibiotics and choose the best treatment for bacteria</b>
	<b>B4</b>	<b>The student will learn the most important tests used to determine the minimum concentration of antibiotics to inhibit bacterial growth</b>
<b>Values</b>	<b>C1</b>	<b>The student will be able to use modern laboratory methods to count colonies and growing bacterial cells</b>
	<b>C2</b>	<b>The student will understand how to use modern technologies to identify bacteria and determine the optimal treatment against the bacteria</b>
	<b>C3</b>	<b>The student understands how to isolate bacteria individually and pure</b>
	<b>C4</b>	<b>The student should perform diagnostic tests and antibiotic sensitivity tests</b>

	against bacteria	
<b>11. Teaching and Learning Strategies</b>		
1.	The student can distinguish between visual and microscopic diagnosis of bacterial	4. cells The student is able to choose the best method to determine the most appropriate antibiotic against bacteria
2.	The student can differentiate between ancient and modern methods for identifying the bacteria or agent causing the disease	5. Student groups, scientific trips, and holding workshops, seminars, and courses.
3.	The student can perform tests to diagnose each type of medical bacteria	6. Scientific reports, oral exams, surprise written exams, and direct questions.

## 12. The Structure of the Course

Week	Hours		RLOs	Topic/Subject Name	Learning Method	Evaluation Method
	Theory	Lab				
1	2	2	Provides an overview of <i>Neisseria</i>	<i>Neisseria</i>	The method of giving lectures Method of discussion +practical application	Written tests Oral exams

## Course Description (Biochemistry2)

1. Course Title	Biochemistry2	
2. Course Code	02012202	
3. Semester/Year	Semester	
4. Description Preparation Date	2024/9/8	
5. Available Attendance Form	Official attendance time (morning and evening).	
6. No. of Hours (Total)	30 hours for the theoretical aspect and 30 hours for the practical aspect	
7. No. of Credits (Total)	4 units	
8. Course Administrator Name	Dr.Mustafa Saleem Shareef Lec.Hiba Khalid	
9. E-mail	<a href="mailto:Mustafa.s@albayan.edu.iq">Mustafa.s@albayan.edu.iq</a> <a href="mailto:Hiba.k@albayan.edu.iq">Hiba.k@albayan.edu.iq</a>	
<b>10. Course Objectives</b>		
Knowledge	A1	Teaching students basic scientific concepts of Biochemistry topics with focus on clinical chemistry and metabolisms.
	A2	Studying biochemistry, metabolisms in illness and recovery
	A3	Teaching metabolisms and obesity and stress and exercises.
	A4	Teaching biochemistry of nutrition's and dietary.
Skills	B1	Scientific discussion
	B2	Weekly exams
	B3	Monthly tests
	B4	Practical examinations
Values	C1	Participation in the classroom
	C2	Provide activities

	<b>C3</b>	Semester and final tests and activities	
	<b>C4</b>	Self-learning, discussion panels	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Active participation in the classroom is evidence of the student's commitment and responsibility		<b>4.</b> Developing the student's ability to deal with multiple tasks.
<b>2.</b>	Adherence to the specified deadline for submitting assignments and research.		<b>5.</b> Active participation in the classroom is evidence of the student's commitment and responsibility
<b>3.</b>	Semester and final exams express commitment and cognitive and theoretical understanding.		<b>6.</b> Developing the student's ability to deal with technical means

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2 theory	The way out in theory The way out in practice	-Introduction to Hormones -Gerngross test and Amino acids Titrati	presence	Daily, monthly and annual written exam
	2 practi.		Curve		
2	2 theory 2 practi.	The way out in theory The way out in practice	-Classification and functions -Lipids tests	presence	Daily, monthly and annual written exam
3	2 theory 2 practi.	The way out in theory The way out in practice	-Receptors and degradations -Ethanol emulsion test, Acrolein, sudan	presence	Daily, monthly and annual written exam
4	2 theory 2 practi.	The way out in theory The way out in practice	-Proteins structures , functions -Acid Value, peroxide Value and Saponification Value	presence	Daily, monthly and annual written exam
5	2 theory 2 practi.	The way out in theory The way out in practice	-Myoglobin and hemoglobin -Iodine Value and Libermann-Burchard Method	presence	Daily, monthly and annual written exam
6	2 theory 2 practi.	The way out in theory The way out in practice	-Metabolism of purine/ pyrimidine -Nucleic acids	presence	Daily, monthly and annual written exam
7	2 theory 2 practi.	The way out in theory The way out in practice	-Vitamins types and reactions --Diphenylamine Method, Fiske-Subbar Method	presence	Daily, monthly and annual written exam
8	2 theory 2 practi.	The way out in theory The way out in practice	-Introduction to Minerals -Bials orcinol Method and Quantitaion o DNA by A260 nm	presence	Daily, monthly and annual written exam

9	2 theory 2 practi.	The way out in theory The way out in practice	-Absorption and sources - Proteins	presence	Daily, monthly and annual written exam
10	2 theory 2 practi.	The way out in theory The way out in practice	-Metabolism of minerals -Biuret protein assay and Folin-Lowry's Method	presence	Daily, monthly and annual written exam
11	2 theory 2 practi.	The way out in theory The way out in practice	-Metabolism of nucleotides -Bradford Method and Microkjeldal Method	presence	Daily, monthly and annual written exam
12	2 theory 2 practi.	The way out in theory The way out in practice	-Purine nucleotide -Isoelectric Point (PI)	presence	Daily, monthly and annual written exam
13	2 theory 2 practi.	The way out in theory The way out in practice	-Salvage pathway of purine -Enzymology	presence	Daily, monthly and annual written exam
14	2 theory 2 practi.	The way out in theory The way out in practice	-Pyrimidine metabolism -Alkaline phosphatase assay and Acid phosphatase assay	presence	Daily, monthly and annual written exam
15	2 theory 2 practi.	The way out in theory The way out in practice	-Review  - $\beta$ -amylase assay and Urease assay	presence	Daily, monthly and annual written exam

### 13. Course Evaluation

Distribution of the grade out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, written exams, reports, etc.

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	General biochemistry Geoffrey Beckett Text book of biochemistry, 2016
Main References (sources)	Articles
Recommended Books & References (Scientific Journals, Reports ...)	Hepers illustrated. Biochemistry, medical book.
Websites or Electronic References	Wikipedia, research gate, google scholar, and many

## Course Description (Human physiology 2)

<b>1. Course Title</b>		<b>Human physiology 2</b>
<b>2. Course Code</b>		<b>02012203</b>
<b>3. Semester/Year</b>		Semester
<b>4. Description Preparation Date</b>		2024/9/7
<b>5. Available Attendance Form</b>		attendance
<b>6. No. of Hours (Total)</b>		60 (30 Theoretical + 30 Practical )
<b>7. No. of Credits (Total)</b>		4
<b>8. Course Administrator Name</b>		prof.dr.shallal murad Duaa Abdulaziz Sobhi
<b>9. E-mail</b>		Shallal.murad@albayan.edu.iq Duaa.a@albayan.edu.iq
<b>10. Course Objectives</b>		
<b>Knowledge</b>	<b>A1</b>	The student will be familiar with the functions of the human body's organs and how to perform laboratory tests for that
	<b>A2</b>	
	<b>A3</b>	
	<b>A4</b>	
<b>Skills</b>	<b>B1</b>	Teaching the function of organs in the human body and the mechanism of each function Teaching the student how to perform laboratory tests and how to read ...the results. These tests help Maintaining human health
	<b>B2</b>	
	<b>B3</b>	
	<b>B4</b>	
<b>Values</b>	<b>C1</b>	Encouraging the student to spread health culture and awareness about the human body and how to care for and maintain it Every function of every organ
	<b>C2</b>

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2th+2p	Human physiology 2	Digestive Physiology: GIT: Part General Function, Food Movement, and Control. Swallowing Reflex/ lab: Urine Sample: Importance, Method of Collection, Preparation, Transport and Storage Physical Examination of Urine Sample	theoretical and practical	exam and quiz and report and home work
2	2th+2p	Human physiology 2	Digestive Physiology: GIT Chem Digestion, Absorption, and Control. Defecation Reflex/ lab: Microscopic Examination of Urine: identification of Epithelial Cells, Blood Cells, crystals, casts	theoretical and practical	exam and quiz and report and home work
3	2th+2p	Human physiology 2	Digestive Physiology: Accessory Organs: Secretion and Their Role Digestion. Secretion Control	theoretical and practical	exam and quiz and report and home work
4	2th+2p	Human physiology 2	Urinary Physiology: General Functions of US. Urine: Definition and Normal Constituent. Physical and Chemical Property of Urine./ lab: Repeat	theoretical and practical	exam and quiz and report and home work
5	2th+2p	Human physiology 2	Role of Kidney in Urine Formation Maintenance of Body Fluids and The Role In Acid-Base Balance/ lab: Chemical Examination of Urine	theoretical and practical	exam and quiz and report and home work
6	2th+2p	Human physiology 2	Urinary Tract: Parts and Function. Urine Hemodynamic and Control Normal Urine Daily Volume and Factors Affecting/ lab: repeat	theoretical and practical	exam and quiz and report and home work
7	2th+2p	Human physiology 2	Endocrine Physiology: Endocrine Glands .Types and Secretion Hormone: Types, Normal Value, Function Control of Secretion/ lab	theoretical and practical	exam and quiz and report and home work
8	2th+2p	Human physiology 2	:Reproductive Physiology	theoretical and practical	exam and quiz and report and

# جامعة البتة

			Sex Physiology: Function of Genital .Organs Male Sex Hormones: Normal Value, Production, Control, and Their Role in Reproduction./lab: : Semen Analysis: Type of Collection & Physical Examination		home work
9	2th+2p	Human physiology 2	male Sex Physiology: Function of Genital .Organs Normal Value of Female Sex Hormone, .Production, and Control Female Cycle, Pregnancy, Parturition, and Lactation: Hormonal Fluctuation and Control.	theoretical and practical	exam and quiz and report and home work
10	2th+2p	Human physiology 2	Muscles Physiology: Types and Function Generation of Action Potential, Contractility and Sliding-Filament theory.	theoretical and practical	exam and quiz and report and home work
11	2th+2p	Human physiology 2	Nervous Physiology: Neuroglia: Definition, .Types, and Function .Neurons: Definition, Types, and Function CSF: Composition, Function, and Clinical Importance	theoretical and practical	exam and quiz and report and home work
12	2th+2p	Human physiology 2	Generation of Action Potential. Neuronal .Conduction: Types and Speed Synapsis: Types, and Function/ lab L blood pressure	theoretical and practical	exam and quiz and report and home work
13	2th+2p	Human physiology 2	CNS: Parts and Functions/ lab: repeat	theoretical and practical	exam and quiz and report and home work
14	2th+2p	Human physiology 2	Spinal Cord: Parts, General Functions, and .Spinal Reflexes PNS: Types and Function/ lab: ESC	theoretical and practical	exam and quiz and report and home work
15	2th+2p	Human physiology 2	Sensory System: Classification and General .Function Special Sense Organs: Types and General Function/ lab: Body Temperature	theoretical and practical	exam and quiz and report and home work

### 13. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports ... etc

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	<b>text books</b>
Main References (sources)	Ganong of medical physiology
Recommended Books & References (Scientific Journals, Reports ...)	Guyton and hall textbook of medical physiology
Websites or Electronic References	Vander renal physiology

## Course Description (Histology 2)

<b>1. Course Title</b>	Histology 2		
<b>2. Course Code</b>	02012204		
<b>3. Semester/Year</b>	Semester		
<b>4. Description Preparation Date</b>	2024/9/7		
<b>5. Available Attendance Form</b>	Lectures and laboratory		
<b>6. No. of Hours (Total)</b>	30 hours (theory) 30 hours (practical)		
<b>7. No. of Credits (Total)</b>	4		
<b>8. Course Administrator Name</b>	Prof.Dr. Baha Fakhri Hussain, lec. Raghda Nasser, lec. Sarah Karim		
<b>9. E-mail</b>	bahaafakhri1961@yahoo.com raghdanaser.m@gmail.com		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Provide the students with basic knowledge about the structure of the human cells, tissues and extracellular matrices surrounding them: epithelium, connective tissues, including blood, bone cartilage, muscles, and nerves.	
	<b>A2</b>	Learn the student the microscopic structure of the different human tissues.	
	<b>A3</b>	Facilitate the integration of Histology with gross Anatomy, Physiology and Biochemistry.	
	<b>A4</b>	Acquire student the skills of using the microscope and identifying the normal structures.	
<b>Skills</b>	<b>B1</b>	Describe the normal ultra-structure of the cell.	
	<b>B2</b>	Describe the organization and components of the human body.	
	<b>B3</b>	Correlate between the predominance of a cell organelle and the function of the cell.	
	<b>B4</b>	Correlate between histological structure & function of different organs of all systems.	
<b>Values</b>	<b>C1</b>	Describe the normal ultra-structure of the cell.	
	<b>C2</b>	Describe the organization and components of the human body.	
	<b>C3</b>	Correlate between the predominance of a cell organelle and the function of the cell.	
	<b>C4</b>	Correlate between histological structure & function of different organs of all systems.	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Use professionally the light microscope to obtain information from histological slides in the laboratory.	<b>4.</b>	
<b>2.</b>	Identify and select various types of special stains for various tissues.	<b>5.</b>	
<b>3.</b>	Work constructively in a group sharing his/her colleagues in the resources available.	<b>6.</b>	

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Circulatory system	Data show and white board	Quiz/homework
2	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Lymphoid system- Lymphatic vessels- Lymph	Data show and white board	Quiz/homework
3	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Lymphoid organs	Data show and white board	Quiz/homework
4	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Respiratory system	Data show and white board	Quiz/homework
5	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Digestive system/ Part one- Oral cavity	Data show and white board	Quiz/homework
6	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Digestive system/ Part two- Gastrointestinal tracts	Data show and white board	Quiz/homework
7	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Digestive system/ Part three- Accessory Glands	Data show and white board	Quiz/homework
8	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Urinary system 1	Data show and white board	Quiz/homework
9	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Urinary system 2	Data show and white board	Quiz/homework
10	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Endocrine system 1	Data show and white board	Quiz/homework
11	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Endocrine system 2	Data show and white board	Quiz/homework

## Course Description (Medical Parasitology and Entomology 2)

<b>1. Course Title</b>	Medical Parasitology and Entomology 2		
<b>2. Course Code</b>	02012205		
<b>3. Semester/Year</b>	Semester		
<b>4. Description Preparation Date</b>	2024/9/5		
<b>5. Available Attendance Form</b>	In-person lecture+ online		
<b>6. No. of Hours (Total)</b>	60 ( 30 Theoretical + 30 Practical)		
<b>7. No. of Credits (Total)</b>	4		
<b>8. Course Administrator Name</b>	Dr. safa tawfeeq whqeeb Hiyder Mussaed Mohammed		
<b>9. E-mail</b>	safa.tawfeeq@albaya.edu.iq		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Knowledge of the parasite's appearance, life cycle, and pathogenesis.	
	<b>A2</b>	Diagnose all parasites of medical importance.	
	<b>A3</b>	Identify the epidemiology of parasites with special reference to those endemic to Iraq.	
	<b>A4</b>	Control and prevent the spread of disease	
<b>Skills</b>	<b>B1</b>	Teaching the use of a microscope and diagnosing the stages of parasites	
	<b>B2</b>	Teaching modern techniques in diagnosis	
	<b>B3</b>		
	<b>B4</b>		
<b>Values</b>	<b>C1</b>	Participation in seminars and conferences held inside and outside the college	
	<b>C2</b>	Motivating students to expand their thinking by making posters and scientific research	
	<b>C3</b>	Develop skills to solve problems that hinder student understanding	
	<b>C4</b>	Holding periodic seminars for students to exchange information, raise the level of thinking, and enhance self-confidence	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Education through pictures presentation	<b>4.</b>	
<b>2.</b>	Education through video presentation	<b>5.</b>	
<b>3.</b>	Education via online	<b>6.</b>	

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method

## Course Description (Descriptive biostatistics)

<b>1. Course Title</b>	<b>Descriptive biostatistics</b>	
<b>2. Course Code</b>	<b>02012206</b>	
<b>3. Semester/Year</b>	Semester	
<b>4. Description Preparation Date</b>	2024/9/2	
<b>5. Available Attendance Form</b>	<b>Attendance</b>	
<b>6. No. of Hours (Total)</b>	<b>60</b>	
<b>7. No. of Credits (Total)</b>	<b>2</b>	
<b>8. Course Administrator Name</b>	<b>Assist. Prof. Dr. Arshed Hameed Yaseen</b>	
<b>9. E-mail</b>	<b>Arshed.h87@uosamarra.edu.iq</b>	
<b>10. Course Objectives</b>		
<b>Knowledge</b>	<b>A1</b>	To use statistical techniques or methods to collect data and information from different sources and summarize in different ways, classify data into different classes and groups, analyze data by different statistical methods, and interpret the results to make decisions.
	<b>A2</b>	To use statistical tools or methods to measure the chance or likelihood scientifically that a particular event will occur.
	<b>A3</b>	To have the fundamental concepts of probability.
	<b>A4</b>	To use statistical techniques or methods to collect data in different classes and groups, analyze data by different statistical methods, and interpret the results to make decisions.
<b>Skills</b>	<b>B1</b>	Identify the meaning of Statistics, Apply Summation Notation and understand its properties.
	<b>B2</b>	Describe the Population and Sample.
	<b>B3</b>	Use graphical methods.
	<b>B4</b>	Identify the measures of tendency, Identify the measures of variation, Measure the relationship between two variables, and Identify the types of probability.
<b>Values</b>	<b>C1</b>	
	<b>C2</b>	
	<b>C3</b>	
	<b>C4</b>	

## 11. Teaching and Learning Strategies

1.

The main strategy that will be adopted in delivering this module is to encourage student's participation in the exercises, while at the same time refining and expanding their critical thinking skills. This will be achieved through classes, interactive tutorials, and by considering types of simple experiments involving some sampling activities that are interesting to the students like some simple and clear exercises. Different teaching techniques will be used to reach the objectives of this course. Firstly: The English language will be used during the lecture. Secondly: There will be classroom discussion and the lecturer will give enough time to solve, analyze, and evaluate problem sets throughout the semester. Thirdly: Worksheets will be designed to give students a chance to practice several aspects of the course in the classroom.

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2th+2pra	Definitions: Statistics, Population Sample, Elements, Variables Data Sources: Types of Data:	Introduction to biostatistics	Data show projector	Homework exercise
2	2th+2pra	Displaying grouped Frequency distribution	Strategies for Understanding Meaning of Data	Data show projector	Homework exercise
3	2th+2pra	The Histogram The Frequency Polygon	Graphs	Data show projector	Homework exercise
4	2th+2pra	Measures of central of tendency or measures of Location: 1-The Mean, Examples, Exercises 2-The Median, Examples, and Exercises. 3-The Mode, Examples, Exercises	Measures of Central Tendency	Data show projector	Homework exercise
5	2th+2pra	Measures of Dispersion: 1-The Range 2-The Sample Variance (S <sup>2</sup> ): a- Examples, b-Exercises 3-The Standard Deviation (S): a- Examples, b-Exercises 4-The Coefficient of Variation (C.V.), Examples, Exercises.	Measures of Dispersion (Measures of Variation)	Data show projector	Homework exercise
6	2th+2pra		Midterm exam		

# جامعة البيان

7	2th+2pra	Box plot: display of distribution Coefficient of Correlation Scatter plot Regression	Coefficient of Correlation	Data show projector	Homework exercise
8	2th+2pra	Probability Experiments, Outcomes, Sample Space, Events Probability Roles	Probability	Data show projector	Homework exercise
9	2th+2pra	Combination and binomial probability distribution	Binomial probability	Data show projector	Homework exercise
10	2th+2pra	Test and hypothesis (t-test, z-score), application in R	Test and hypothesis	Data show projector	Homework exercise
11			Final exam

<b>8. Course Administrator Name</b>	Dr.Hamed Harata Lec.Rafal Yousif Salman		
<b>9. E-mail</b>	Rafal.y@albayan.edu.iq		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Provides the students with the essential basic scientific knowledge required to understand in integrated manner the structure and functional deviations from the normal in the various body systems and organs.	
	<b>A2</b>	Familiarize students with the basic pathology.	
	<b>A3</b>	Understand the etiology, pathogenesis and pathologic manifestation of disease process.	
	<b>A4</b>	Provide the students with the skills of differentiation between normal and abnormal tissues.	
<b>Skills</b>	<b>B1</b>	Describe and contrast neoplasm and cysts.	
	<b>B2</b>	Identify pathological changes by the light microscope	
	<b>B3</b>	Describe the pathologic picture of a disorder based on gross or microscopic morphology	
	<b>B4</b>	Demonstrate the ability to identify the macroscopic and microscopic criteria of the altered structure and hence function of the tissue in disease process	
<b>Values</b>	<b>C1</b>	Explain terms and divisions in general pathology.	
	<b>C2</b>	Demonstrate an understanding of the etiology and pathogenesis of disease & its effects on the body	
	<b>C3</b>	Explain the salient principles of inflammation and repair	
	<b>C4</b>	Describe circulatory dysfunction	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Presentations	<b>4.</b>	<b>E-learning</b>
<b>2.</b>	Panel discussions	<b>5.</b>	
<b>3.</b>	Practical exercises	<b>6.</b>	

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Introduction, cell constituent	Data show and white board	Quiz and homework
2	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Inflammation, Repair & Degeneration Acute Inflammation	Data show and white board	Quiz and homework
3	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Chronic Inflammation	Data show and white board	Quiz and homework
4	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Repair, healing & Regeneration	Data show and white board	Quiz and homework
5	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Retrograde, changes, Degeneration	Data show and white board	Quiz and homework
6	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Atrophy Necrosis, cloudy swelling	Data show and white board	Quiz and homework
7	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Gangrene	Data show and white board	Quiz and homework
8	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Criteria used for cytopathological diagnosis of cancer	Data show and white board	Quiz and homework
9	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Changes in the cytoplasm malignancy, Changes in the nucleus in malignancy	Data show and white board	Quiz and homework

# جامعة البتة

10	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Changes in cell as a general malignancy	Data show and white board	Quiz and homework
11	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Nomenclature of tumors	Data show and white board	Quiz and homework
12	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Classification of tumors.	Data show and white board	Quiz and homework
13	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Fixation & Fixatives, Theoretical aspects of Fixation, Most common fixatives common use	Data show and white board	Quiz and homework
14	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Fixation for special substances Specializes Techniques individual tissue & fixation Arte fact	Data show and white board	Quiz and homework
15	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Tissue processing, Fixation, dehydration, clearing, embedding	Data show and white board	Quiz and homework

**13. Course Evaluation**

## Course Description (Mycology)

<b>1. Course Title</b>	<b>Mycology</b>		
<b>2. Course Code</b>	02013103		
<b>3. Semester/Year</b>	2025-2024		
<b>4. Description Preparation Date</b>	4/9/2024		
<b>5. Available Attendance Form</b>	<b>Lectures(Theory &amp;Practical)</b>		
<b>6. No. of Hours (Total)</b>	<b>60 (30 Theoretical + 30 Practical )</b>		
<b>7. No. of Credits (Total)</b>	<b>4 units for the first semester</b>		
<b>8. Course Administrator Name</b>	<b>Dr.Ghufran.h.Abed</b>		
<b>9. E-mail</b>	<b>Ghufran.h@albayan.edu.iq</b>		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Make the student known to medical viruses and fungi, and the causes of it diseases	
	<b>A2</b>		
	<b>A3</b>		
	<b>A4</b>		
<b>Skills</b>	<b>B1</b>	Make the student how diagnose the viral and fungal diseases and how to treatment	
	<b>B2</b>		
	<b>B3</b>		
	<b>B4</b>		
<b>Values</b>	<b>C1</b>	The student must have full knowledge of viral and fungal diseases and how to deal with them.	
	<b>C2</b>		
	<b>C3</b>		
	<b>C4</b>		
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Intellectual or mental education	<b>4.</b>	
<b>2.</b>	Collaborative co-education	<b>5.</b>	
<b>3.</b>	Blended learning	<b>6.</b>	

**13. The Structure of the Course**
**12.**

Week	Hours		RLOs	Topic/Subject Name	Learning Method	Evaluation Method
	Theory	Practical				
1	2	2	Theoretical: introduction to medical epidemiological mycology	Top of Mycology	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
			Practical: types of fungi and how to diagnose them			
2	2	2	Theoretical: morphological qualities reproduction of fungi	Reproduction of fungi	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
			Practical: types of reproduction of fungi			
3	2	2	My theory: tinea surface fungi and black fungus	Superficial mycosis	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
			Practical: tests and tinctures used for fungi			
4	2	2	Theoretical: Trychphytonspp, Microsporiumsp	Dermatophytes	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
			and Epidermophytonsp			
5	2	2	Practical: continuous	Subcutaneous fungus	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
			Theoretical Trychphytonspp, Microsporiumsp			
6	2	2	and Epidermophytonsp	Filamentous fungi	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
			Practical: subcutaneous mycosis			
7	2	2	Theoretical: infection due to filamentous fungi aspergillosis	Yeasts	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
			Practical: types of tinea			
8	2	2	Theoretical: infection due to fungi yeast candidiasis	Opportunistic fungi	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
			Practical: continuous			
9	2	2	My theory: penicillium opportunistic fungus	Antifungal agents	Method of giving lectures	Oral & written exam.

# جامعة البتة

			Practical: continuous		Discussion method Cooperative education	
10	2	2	Theoretical: antifungal Practical: Histoplasmosis Paracoccidiomycosis	Systemic mycosis Top of Mycology	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
11	2	2	Theoretical: Systemic mycosis: Coccidiomycosis and Blastomycosis Practical: antifungal agents and allergy testing	Reproduction of fungi	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
12	2	2	Theoretical: introduction to medical epidemiological mycology Practical: types of fungi and how to diagnose them	Superficial mycosis	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
13	2	2	Theoretical: morphological qualities and reproduction of fungi Practical: types of reproduction of fungi	Dermatophytes	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
14	2	2	Theoretical: tinea surface fungi and black fungus Practical: tests and tinctures used for fungi	Subcutaneous fungus	Method of giving lectures Discussion method Cooperative education	Oral & written exam.
15	2	2	Theoretical: Trichophyton spp, Microsporium spp and Epidermophyton spp Antifungal agents (Sensitivity tests). Mycotoxins isolation		Method of giving lectures Discussion method Cooperative education	Oral & written exam.

#### 14. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

#### 15. Learning & Teaching Resources

Required textbooks (curricular if any)	Jawetz, R., J.L. Melnick, and E.A. Adelberg,( 2019). Review of Medical

## Course Description (Metabolic disorders)

<b>1. Course Title</b>		<b>Metabolic disorders</b>
<b>2. Course Code</b>		<b>02013104</b>
<b>3. Semester/Year</b>		<b>2025-2024</b>
<b>4. Description Preparation Date</b>		<b>2/9/2024</b>
<b>5. Available Attendance Form</b>		<b>Attendance in the classroom in addition to e-learning</b>
<b>6. No. of Hours (Total)</b>		<b>( 30 Theoretical + 30 Practical )</b>
<b>7. No. of Credits (Total)</b>		<b>4 units for the first semester</b>
<b>8. Course Administrator Name</b>		<b>Prof.Dr. Waleed Hameed Yousif</b>
<b>9. E-mail</b>		<b>Waleed.h@albayan.edu.iq</b>
<b>10. Course Objectives</b>		
<b>Knowledge</b>	<b>A1</b>	<b>Introducing the student to the basic principles related to pathologic analyzes regarding metabolism and Endocrinology</b>
	<b>A2</b>	<b>Introducing the student to the theoretical and practical foundations laboratory tests in metabolic disorders and endocrinology of various diseases</b>
	<b>A3</b>	<b>Special emphasis on the examinations of some organs, which are related to the compounds of Endocrinology</b>
	<b>A4</b>	<b>Introducing important experiments with modern technologies laboratory diagnostics to give the student a new opportunity to get acquainted with qualitative examinations</b>
<b>Skills</b>	<b>B1</b>	<b>The student should be able to acquire basic knowledge and skills Endocrinology and disorders</b>
	<b>B2</b>	<b>Teaching the student how to become able to think logically, analyze, and employ the prescribed curriculum vocabulary.</b>
	<b>B3</b>	<b>Developing the student's mental and personal ability in the specialty an important part of his field of specialization</b>
	<b>B4</b>	<b>Providing the student with communication skills and using modern educational technologies effectively.</b>
<b>Values</b>	<b>C1</b>	<b>The student should be able to work collectively, and work individually make clinical endocrinological analyzes</b>
	<b>C2</b>	<b>The student should be able to use information technology to search for information</b>

# جامعة البتة

	<b>C3</b>	<b>The student should be able to communicate with the professor and colleagues</b>	
	<b>C4</b>	<b>The student must be able to rely on himself</b>	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	<b>Providing an appropriate educational climate for logical thinking through continuous guidance of students during lectures</b>	<b>4.</b>	<b>Use the display screen to lecture and the blackboard.</b>
<b>2.</b>	<b>Opening the door for open and direct discussions with students</b>	<b>5.</b>	<b>Visit the library</b>
<b>3.</b>	<b>Follow a cooperative learning strategy</b>	<b>6.</b>	<b>Directing the student to websites to benefit from them</b>

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1,2	4	The student should be aware of information provided to him and the extent of its applicability to reality	WATER HOMEOSTASIS	Gain information about the mechanism of water balance in the human body	Oral questions
3,4	4	The student should be aware of information provided to him and the extent of its applicability to reality	MINERAL METABOLISM: - Electrolytes: Na, K, Cl, Mg, Ca - Trace elements: Fe, Cu, Zn, Mn, F	Knowledge of the metabolism of some minerals	solving equations
5,6	4	The student should be aware of information provided to him and the extent of its applicability to reality	BLOOD GASES: - Acid - Base balance - Blood pH & Blood buffer	How to prepare acids and bases	solving equations
7,8	4	The student should be aware of information provided to him and the extent of its applicability to reality	Diabetes mellitus	Knowing the cause and types of diabetes	solving equations
9,10,11	6	The student should be aware of information provided to him and the extent of its applicability to reality	LIVER: - Physiology and role in metabolism - Bilirubin metabolism - Bile salts & gall stones - Liver function tests Disorders of the Liver: i) Jaundice & Neonatal Jaundice ii) Alcoholic Liver disease iii) Hepatitis iv) Cirrhosis v) Liver tumors	Identify tumors and diseases that affect them	Written exam
12,13	4	The student should be aware of information provided to him and the extent of its applicability to reality	KIDNEY: - Functions - Renal functions tests - Proteinuria - Renal failure (Acute:Chronic)	Learn about the kidney, functions, and the diseases that affect it	solving equations
14,15	4	The student should be aware of information provided to him and the extent of its applicability to reality	Disorder in lipid metabolism Cholesterol T.G, phospholipids lipoprotein	Knowledge of the types of blood plasma fats and their experiences	solving equations

## Course Description (Medical Genetics1)

<b>1. Course Title</b>		<b>Medical Genetics1</b>	
<b>2. Course Code</b>		02013105	
<b>3. Semester/Year</b>		2024-2025	
<b>4. Description Preparation Date</b>		1/9/2024	
<b>5. Available Attendance Form</b>		<b>Theoretical + Practical</b>	
<b>6. No. of Hours (Total)</b>		<b>(30) Theoretical+ (30) Practical</b>	
<b>7. No. of Credits (Total)</b>		<b>4 units for the first semester</b>	
<b>8. Course Administrator Name</b>		<b>Asst.Prof.Riad Abdulhussien Delool</b>	
<b>9. E-mail</b>		Riad.delool@albayan.edu.iq	
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Knowledge of inheritance systems	
	<b>A2</b>	Studying the effect of mutations on genetic traits	
	<b>A3</b>	Chromosomal changes and their effects	
	<b>A4</b>	Environmental changes and their relationship to genetic traits	
<b>Skills</b>	<b>B1</b>	Identify the effect of genetic mutations	
	<b>B2</b>	Identify genetic traits and acquired traits	
	<b>B3</b>	Identify the inheritance of genetic diseases	
	<b>B4</b>	Identify the characteristics that are related to the sex of the organism	
<b>Values</b>	<b>C1</b>	Trying to differentiate between scientific studies and social factors	
	<b>C2</b>	Respecting religious traditions and social norms in genetic studies	
	<b>C3</b>	Trying to explain how genetic changes are transmitted between generations	
	<b>C4</b>	In-depth studies of the family tree and how genetic traits are transmitted	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Attempting practical application of theoretical studies	<b>4.</b>	Many short-term scientific missions
<b>2.</b>	Continuously developing the curriculum	<b>5.</b>	More tests to develop students' level
<b>3.</b>	Continuous review of international educational systems	<b>6.</b>	Continuous interaction with other universities to identify differences in teaching methods

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Cell divisions	Theoretical study practical applications	Conduct quick exams
2	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Types of traits (hereditary and acquired)	Theoretical study practical applications	Conduct quick exams

## Course Description (Computer applications1)

<b>1. Course Title</b>		Computer applications1	
<b>2. Course Code</b>		02013107	
<b>3. Semester/Year</b>		2025-2024	
<b>4. Description Preparation Date</b>		2024/9/6	
<b>5. Available Attendance Form</b>		Face to face attendance	
<b>6. No. of Hours (Total)</b>		(30 Theoretical + 30 Practical )	
<b>7. No. of Credits (Total)</b>		2 for the first semester	
<b>8. Course Administrator Name</b>		Asst. Lect. Mustafa Mohammed Hammoodi	
<b>9. E-mail</b>		tuhafi.1989@gmail.com	
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	The student gets to know the Excel program -	
	<b>A2</b>	The student learns how to deal with the jobs raised by this program -	
	<b>A3</b>	The student learns about the most important mathematical operations that can be applied in this program	
	<b>A4</b>	The student learns how to copy data from multiple cells and the paste options available	
<b>Skills</b>	<b>B1</b>	The student acquires the skill of dealing with the most important functions provided by the Excel program	
	<b>B2</b>	The student acquires the skill of controlling the display of cells and changing their style and format through tools -	
	<b>B3</b>	The student acquires the skill of descriptive analysis of data using the SPSS program	
	<b>B4</b>	The student acquires the skill of using ready-made functions provided by the Excel program to carry operations -	
<b>Values</b>	<b>C1</b>	Learn how to open calculator programs and deal with files, including storing, opening, editing, and lock data	
	<b>C2</b>	Learn how to use Excel & Power Point. Learn how to use the famous statistical program SPSS	
	<b>C3</b>	Learn how to open calculator programs and deal with files, including storing, opening, editing, and lock data	
	<b>C4</b>	The most important components of a computer and how to deal with them	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Through lecture, clarification methods, giving electronic assignments, and interacting within the electronic platform		<b>4.</b> Short exams, quizzes, quarterly and annual exams

# جامعة البتة

2.	Theoretical and practical lectures	5.	Apply, implement, and then evaluate the implementation
3.	- Applying the theoretical material in a practical manner electronically by using Google Sheet	6.	Short exams, quizzes, quarterly and annual exams

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1-15	45	excel	<p>Excel program: Learn about the concept of the program, its benefits, specifications, features, and methods operation</p> <ul style="list-style-type: none"> <li>-Get to know the main screen and components, and how it contains various menus and effective tools</li> <li>-The concept of the cell, basic data types how to enter them</li> <li>-How to save the work sheet or work book, close the program, close the file.</li> <li>-Open the saved file, enter data and perform calculations, learn how to adjust or format data and structure it within a single cell or group of cells.</li> <li>-Learn about ways to collect data or group cells in their different forms, as well as how to sort data</li> <li>-Use some of the functions provided by program such as max, min, sum, ave, sqrt, count and other useful related statistical functions.</li> <li>-Learning about the editing process provided by the program, how to copy data or transfer data, and learning about the concept of copying mathematical operations, as well as the concept of relative cells and absolute cells.</li> <li>-Control the cell width: change its style format by using formatting tools.</li> </ul>	Lecture and other explanation	Quiz and exam

# جامعت البیان

			<p>-Dealing with charts and how to convert digital and textual data into charts of various types through the chart wizard (chart wizard) and learning how to make the modifications and revisions provided by the program.</p> <p>-Learn how to add or delete rows or columns on a work page and how to print digital data or charts</p>

## Course Description (Advanced laboratory techniques)

<b>1. Course Title</b>		Advanced laboratory techniques	
<b>2. Course Code</b>		02013108	
<b>3. Semester/Year</b>		2024-2025	
<b>4. Description Preparation Date</b>		6/9/2024	
<b>5. Available Attendance Form</b>		Attendance	
<b>6. No. of Hours (Total)</b>		<b>(30 Theoretical + 30 Practical )</b>	
<b>7. No. of Credits (Total)</b>		3	
<b>8. Course Administrator Name</b>		Lec.Hayder Ahmed Kadhim	
<b>9. E-mail</b>		<b>Hayder.a@albayan.edu.iq</b>	
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Definition and introduction to the most important laboratory techniques	
	<b>A2</b>	Practical application of diagnostic methods on modern devices	
	<b>A3</b>	Identifying the most important diseases and the most common diseases in laboratories	
	<b>A4</b>	Understanding the mechanism of development of diseases of the urinary system and digestive system semen examinations	
<b>Skills</b>	<b>B1</b>	The student learns the skill of drawing blood, taking a urine sample and other bodily fluids, and how to Sa the sample and transporting it to the laboratory	
	<b>B2</b>	The student learns the skill of conducting immunological examinations and other laboratory techniques Clinical diagnosis such as ASO, GUE, GSE and other examinations	
	<b>B3</b>	The student acquires the skill of operating the ELISA device, programming the VIDAS & MINIVII device, and dealing with books. It is ready for the purpose of quick examinations.	
	<b>B4</b>	Applying diagnostic criteria, comparing their types, and learning on the latest devices.	
<b>Values</b>	<b>C1</b>	Learn about laboratory techniques	
	<b>C2</b>	Identify the most important disorders and problems accompanying the digestive and urinary systems Semen in humans	
	<b>C3</b>	Understanding diseases of the immune system and other diseases, their types, causes, methods of diagno them, and Such as examining individual immune proliferation, the effect of complement, and estimating quantity of Immune globulin and other components of bodily fluids, blood serum, and fluids For any o body.	
	<b>C4</b>	Analyze the results by comparing the result of a healthy person	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Lectures	<b>4.</b>	QUIZ

# جامعة البتة

2.	USE DATASHOW	5.	Theoretical and practical lectures
3.	Adopting video lectures to increase knowledge	6.	Quarterly exams

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2th +2p	The student gets to know	<b>Microbiology</b>	Theoretical and practical	Quiz + Attendance
2	2th +2p	The student gets to know	<b>Introduction</b>	Theoretical and practical	Quiz + Attendance
3	2th +2p	The student gets to know	<b>Safety and principles of sterilization</b>	Theoretical and practical	Quiz + Attendance
5-4	2th +2p	The student gets to know	<b>Collection, Transport, Examination reporting of specimens</b>	Theoretical and practical	Quiz + Attendance
7-6	2th +2p	The student gets to know	<b>Culturing of organisms</b>	Theoretical and practical	Quiz + Attendance
9-8	2th +2p	The student gets to know	<b>Conventional microbiological techniques</b>	Theoretical and practical	Quiz + Attendance
12-11-1	2th +2p	The student gets to know	<b>Biochemical testing of microorganisms</b>	Theoretical and practical	Quiz + Attendance
13	2th +2p	The student gets to know	<b>Serological diagnostic techniques</b>	Theoretical and practical	Quiz + Attendance
14	2th +2p	The student gets to know	<b>diagnostic techniques</b>	Theoretical and practical	Quiz + Attendance
15	2th +2p	The student gets to know	<b>Molecular diagnostic techniques</b>	Theoretical and practical	Quiz + Attendance
16	2th +2p	The student gets to know	<b>Cell and tissue culture</b>	Theoretical and practical	Quiz + Attendance
18-17	2th +2p	The student gets to know	<b>Molecular diagnostic techniques</b>	Theoretical and practical	Quiz + Attendance
19	2th +2p	The student gets to know	<b>Biochemistry</b>	Theoretical and practical	Quiz + Attendance
22-21-2	2th +2p	The student gets to know	<b>Cell homogenisation and fractionation</b>	Theoretical and practical	Quiz + Attendance

# جامعة البيان

25-24-2	2th +2p	The student gets to know	<b>Separation techniques</b>	<b>Theoretical and practical</b>	Quiz + Attendance
28-27-2	2th +2p	The student gets to know	<b>Enzyme kinetic Monitoring techniques</b>	<b>Theoretical and practical</b>	Quiz + Attendance
29-30	2th +2p	The student gets to know	<b>Enzyme assay techniques</b>	<b>Theoretical and practical</b>	Quiz + Attendance

### 13. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	Diagnostic Criteria in general practical's laboratory techniques
Main References (sources)	Stevens practical's immunology and serology : a laboratory perspective / Christine Dorresteyn Stevens. — 3rd ed. Mary Louise Turgeon. 2014. IMMUNOLOGY & SEROLOGY IN LABORATORY MEDICINE 4th ed.

## Course Description (Histopathology 2)

<b>1. Course Title</b>	Histopathology 2		
<b>2. Course Code</b>	02013201		
<b>3. Semester/Year</b>	2025-2024		
<b>4. Description Preparation Date</b>	2024/9/5		
<b>5. Available Attendance Form</b>	Lectures and laboratory sessions		
<b>6. No. of Hours (Total)</b>	30 hours (theory) 30 hours (practical)		
<b>7. No. of Credits (Total)</b>	3 units for the second semester		
<b>8. Course Administrator Name</b>	Dr.Hamed Harata Lec.Rafal Yousif Salman		
<b>9. E-mail</b>	Rafal.y@albyan.edu.iq		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Provides the students with the essential basic scientific knowledge required to understand in integrated manner the structure and functional deviations from the normal in the various body systems and organs.	
	<b>A2</b>	Familiarize students with the basic pathology.	
	<b>A3</b>	Understand the etiology, pathogenesis and pathologic manifestation of disease process.	
	<b>A4</b>	Provide the students with the skills of differentiation between normal and abnormal tissues.	
<b>Skills</b>	<b>B1</b>	Describe and contrast neoplasm and cysts.	
	<b>B2</b>	Identify pathological changes by the light microscope	
	<b>B3</b>	Describe the pathologic picture of a disorder based on gross or microscopic morphology	
	<b>B4</b>	Demonstrate the ability to identify the macroscopic and microscopic criteria of the altered structure and hence function of the tissue in disease process	
<b>Values</b>	<b>C1</b>	Explain terms and divisions in general pathology.	
	<b>C2</b>	Demonstrate an understanding of the etiology and pathogenesis of disease & its effects on the body	
	<b>C3</b>	Explain the salient principles of inflammation and repair	
	<b>C4</b>	Describe circulatory dysfunction	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Presentations	<b>4.</b>	<b>E-learning</b>
<b>2.</b>	Panel discussions	<b>5.</b>	
<b>3.</b>	Practical exercises	<b>6.</b>	

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Factors influencing rate impregnation, Agitation, heat, viscosity, ultrasonies, vacuum	Data show and white board	Quiz and homework
2	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Microtomy and paraffin section	Data show and white board	Quiz and homework
3	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Staining of tissue section Hematoxylin, eosin, connective tissue, stains	Data show and white board	Quiz and homework
4	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Special stains for proteine, carbohydrate lipid, mucosubstance, pigment minerals, apud cell and microorganisms	Data show and white board	Quiz and homework
5	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Preparation of bone sections	Data show and white board	Quiz and homework
6	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Demonstration of cytoplasmic granules organells and social tissue	Data show and white board	Quiz and homework
7	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Neuropathological techniques	Data show and white board	Quiz and homework
8	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Enzyme histochemistry and aplicaton	Data show and white board	Quiz and homework

# جامعة البتة

9	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Immunohistochemistry and application	Data show and white board	Quiz and homework
10	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Resin embedding media	Data show and white board	Quiz and homework
11	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Electron microscopy techniques	Data show and white board	Quiz and homework
12	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Electron microscopy -Diagnostic uses	Data show and white board	Quiz and homework
13	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Histometry and diagnostic uses	Data show and white board	Quiz and homework
14	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Immunofluorescence Techniques	Data show and white board	Quiz and homework
15	2th+2p	The student's knowledge of the scientific subject and the realization of scientific, mental and professional skills	Museum and other demonstration techniques	Data show and white board	Quiz and homework

**13. Course Evaluation**

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

**14. Learning & Teaching Resources**

Required textbooks (curricular if any)	<b>Robins Basic Pathology</b>

## Course Description (Hematology2)

<b>1. Course Title</b>		<b>Hematology2</b>	
<b>2. Course Code</b>		02013202	
<b>3. Semester/Year</b>		2025-2024	
<b>4. Description Preparation Date</b>		7/9/2024	
<b>5. Available Attendance Form</b>		<b>Theoretical + Practical</b>	
<b>6. No. of Hours (Total)</b>		<b>(30 Theoretical + 30 Practical )</b>	
<b>7. No. of Credits (Total)</b>		<b>3 units for the first semester</b>	
<b>8. Course Administrator Name</b>		<b>Fadaa Abdullah Mahmoud</b>	
<b>9. E-mail</b>		<b>fathaa.m@albayan.edu.iq</b>	
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Giving the student expanded and recent idea about hematology and normal and abnormal ranges of blood components in addition to the changes that occur in infection with different diseases.	
	<b>A2</b>		
	<b>A3</b>		
	<b>A4</b>		
<b>Skills</b>	<b>B1</b>	Giving the student a good idea about important diagnostic characteristics of each hematological disease.	
	<b>B2</b>		
	<b>B3</b>		
	<b>B4</b>		
<b>Values</b>	<b>C1</b>	Setting a good information basis to enable the student to follow up with medical society with they dealing in hospitals.	
	<b>C2</b>		
	<b>C3</b>		
	<b>C4</b>		
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	<b>Practical doing of hematological tests</b>	<b>4.</b>	
<b>2.</b>		<b>5.</b>	
<b>3.</b>		<b>6.</b>	

12. The Structure of the Course					
Week	Hours	RLOs	Practical/Subject Name	Learning Method	Evaluation Method
1	2th+2p	Learning of blood collection	Total leukocyte count	Theoretical + Practical	Quiz
2	2th+2p	Distinguish between Anticoagulant types	Absolute leukocyte count	Theoretical + Practical	Quiz
3	2th+2p	Learning the normal values	Differential counting of leukocytes	Theoretical + Practical	Quiz
4	2th+2p	Hb testing and anemia diagnosis	Counting eosinophilic cells	Theoretical + Practical	Quiz
5	2th+2p	Blood viscosity testing	Blood film for leukemia	Theoretical + Practical	Quiz
6	2th+2p	Knowing RBCs Count diagnose pathological conditions	Special dye for leukemia	Theoretical + Practical	Quiz
7	2th+2p	Testing of RBCs indices	Special dye for leukemia	Theoretical + Practical	Quiz
8	2th+2p	Blood Picture microscopically	Platelet count	Theoretical + Practical	Quiz
9	2th+2p	Blood Picture microscopically	Measurement of bleeding time	Theoretical + Practical	Quiz
10	2th+2p	Learning shape and size of RBCs	Measurement of coagulation time	Theoretical + Practical	Quiz
11	2th+2p	Distinguishing	Measurement of prothrombin	Theoretical +	Quiz

# جامعة البتة

		inclusion bodies inside RBCs		Practical	
12	2th+2p	RBCs testing	<b>Measurement of partial thromboplastin time</b>	Theoretical + Practical	Quiz
13	2th+2p	Diagnosis of sickle cell anemia	<b>Detection of a deficiency of coagulation factors</b>	Theoretical + Practical	Quiz
14	2th+2p	Diagnosis of some pathological conditions	<b>Qualitative control of laboratories</b>	Theoretical + Practical	Quiz
15	2th+2p	Study the previous subjects	<b>Review of materials</b>	Theoretical + Practical	Quiz

## Course Description (Clinical Endocrinology)

<b>1. Course Title</b>		<b>Clinical Endocrinology</b>
<b>2. Course Code</b>		<b>02013204</b>
<b>3. Semester/Year</b>		<b>2025-2024</b>
<b>4. Description Preparation Date</b>		<b>2/9/2024</b>
<b>5. Available Attendance Form</b>		<b>Attendance in the classroom in addition to e-learning</b>
<b>6. No. of Hours (Total)</b>		<b>( 30 Theoretical + 30 Practical )</b>
<b>7. No. of Credits (Total)</b>		<b>4 units for the second semester</b>
<b>8. Course Administrator Name</b>		<b>Prof.Dr. Waleed Hameed Yousif</b>
<b>9. E-mail</b>		<b>Waleed.h@albayan.edu.iq</b>
<b>10. Course Objectives</b>		
<b>Knowledge</b>	<b>A1</b>	<b>Introducing the student to the basic principles related to pathologic analyzes regarding metabolism and Endocrinology</b>
	<b>A2</b>	<b>Introducing the student to the theoretical and practical foundations laboratory tests in metabolic disorders and endocrinology of various diseases</b>
	<b>A3</b>	<b>Special emphasis on the examinations of some organs, which are related to the compounds of Endocrinology</b>
	<b>A4</b>	<b>Introducing important experiments with modern technologies laboratory diagnostics to give the student a new opportunity to get acquainted with qualitative examinations</b>
<b>Skills</b>	<b>B1</b>	<b>The student should be able to acquire basic knowledge and skills Endocrinology and disorders</b>
	<b>B2</b>	<b>Teaching the student how to become able to think logically, analyze, and employ the prescribed curriculum vocabulary.</b>
	<b>B3</b>	<b>Developing the student's mental and personal ability in the specialty an important part of his field of specialization</b>
	<b>B4</b>	<b>Providing the student with communication skills and using modern educational technologies effectively.</b>
<b>Values</b>	<b>C1</b>	<b>The student should be able to work collectively, and work individually make clinical endocrinological analyzes</b>
	<b>C2</b>	<b>The student should be able to use information technology to search for information</b>

# جامعة البتة

	<b>C3</b>	<b>The student should be able to communicate with the professor and colleagues</b>	
	<b>C4</b>	<b>The student must be able to rely on himself</b>	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	<b>Providing an appropriate educational climate for logical thinking through continuous guidance of students during lectures</b>	<b>4.</b>	<b>Use the display screen to lecture and the blackboard.</b>
<b>2.</b>	<b>Opening the door for open and direct discussions with students</b>	<b>5.</b>	<b>Visit the library</b>
<b>3.</b>	<b>Follow a cooperative learning strategy</b>	<b>6.</b>	<b>Directing the student to websites to benefit from them</b>

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2	A1, A2, A3, A4, B1, B2, B3, B4, C1, C2, C4	Introduction to endocrinology and types of glands, definition of hormones, similarities and differences between hormones and enzymes. Classification of hormones, factors regulating the action of hormones and regulating the secretion of hormones	Gaining information about the mechanism of water balance in the human body and analyzing ions	Oral questions
2,3	2	A1, A2, A3, A4, B1, B2, B3, B4, C1, C2, C4	The mechanism of action of hormones:	Know how to calculate the concentration of iron and calcium	Conducting practical experiments
4	2	A1, A2, A3, A4, B1, B2, B3, B4, C1, C2, C4	1-interaction with nuclear chromatin (nuclear action).	How to balance acids and bases	Conducting practical experiments
5	2	A1, A2, A3, A4, B1, B2, B3, B4, C1, C2, C4	2-membrane receptors.	Know the causes and types of diabetes	Conducting practical experiments
6	2	A1, A2, A3, A4, B1, B2, B3, B4, C1, C2, C4	3-stimulation of enzyme synthesis in the ribosome.	Identify the functions of the liver and the diseases that affect it	Conducting practical experiments
7,8	2	A1, A2, A3, A4, B1, B2, B3, B4, C1, C2, C4	4-direct activation at the enzyme level.	Learn about the kidney, its functions, and the diseases that affect it	Conducting practical experiments
9	2	A1, A2, A3, A4, B1, B2, B3, B4, C1, C2, C4	5-c-AMP and the action of hormones.	Knowing the types of blood plasma fats and their tests	Conducting practical experiments
10	2	A1, A2, A3, A4, B1, B2, B3, B4, C1, C2, C4	6-the role of polyphosphoinositol and diacylglycerol in the action of hormones.	Knowing the diseases that affect the heart and its parameters	Conducting practical experiments
11,12	2	A1, A2, A3, A4, B1, B2, B3, B4, C1, C2, C4	7-the role of calcium in the work of hormones.	Identify the functions of the pancreas and its tests	Conducting practical experiments
13	2	A1, A2, A3, A4, B1, B2, B3, B4, C1, C2, C4	8-the role of c-GMP in the work of hormones.	Identifying blood plasma proteins and their usefulness in diagnosing diseases	Conducting practical experiments
14,15	2	A1, A2, A3, A4, B1, B2, B3, B4, C1, C2, C4	9-the role of phosphorylation of tyrosine kinase	Identify tumor parameters	Conducting practical experiments

## 12. Course Evaluation

Distribution of the grade out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, written exams, reports, etc.

## 13. Learning & Teaching Resources

Required textbooks (curricular if any)	Peter Rae - Clinical Endocrinology Lecture Notes (2018, John Wiley & Sons Ltd)
Main References (sources)	William Clarke PhD (editor), Mark Marzinke (editor) - Contemporary Practice in Clinical Endocrinology - Academic Press (2020)
Recommended Books & References (Scientific Journals, Reports ...)	Tietz Fundamentals of Clinical Endocrinology and Molecular Diagnostics, 9th Edition
Websites or Electronic References	<a href="https://www.sciencedirect.com/">https://www.sciencedirect.com/</a> <a href="https://pubmed.ncbi.nlm.nih.gov/">https://pubmed.ncbi.nlm.nih.gov/</a>

## Course Description (5)

<b>1. Course Title</b>	<b>Medical Genetics2</b>		
<b>2. Course Code</b>	02013205		
<b>3. Semester/Year</b>	2024-2025		
<b>4. Description Preparation Date</b>	1/9/2024		
<b>5. Available Attendance Form</b>	<b>Theoretical + Practical</b>		
<b>6. No. of Hours (Total)</b>	<b>(30) Theoretical+ (30) Practical</b>		
<b>7. No. of Credits (Total)</b>	<b>4 units for the second semester</b>		
<b>8. Course Administrator Name</b>	<b>Asst.Prof.Riad Abdulhussien Delool</b>		
<b>9. E-mail</b>	Riad.delool@albayan.edu.iq		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Knowledge of inheritance systems	
	<b>A2</b>	Studying the effect of mutations on genetic traits	
	<b>A3</b>	Chromosomal changes and their effects	
	<b>A4</b>	Environmental changes and their relationship to genetic traits	
<b>Skills</b>	<b>B1</b>	Identify the effect of genetic mutations	
	<b>B2</b>	Identify genetic traits and acquired traits	
	<b>B3</b>	Identify the inheritance of genetic diseases	
	<b>B4</b>	Identify the characteristics that are related to the sex of the organism	
<b>Values</b>	<b>C1</b>	Trying to differentiate between scientific studies and social factors	
	<b>C2</b>	Respecting religious traditions and social norms in genetic studies	
	<b>C3</b>	Trying to explain how genetic changes are transmitted between generations	
	<b>C4</b>	In-depth studies of the family tree and how genetic traits are transmitted	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Attempting practical application of theoretical studies	<b>4.</b>	Many short-term scientific missions
<b>2.</b>	Continuously developing the curriculum	<b>5.</b>	More tests to develop students' level
<b>3.</b>	Continuous review of international educational systems	<b>6.</b>	Continuous interaction with other universities to identify differences in teaching methods

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Mutagenic agents of all kinds	Theoretical study practical applications	Conduct quick exams
2	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Mutagenic agents of all kinds	Theoretical study practical applications	Conduct quick exams
3	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	The relationship between genetics cancer	Theoretical study practical applications	Conduct quick exams
4	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	The relationship between genetics cancer	Theoretical study practical applications	Conduct quick exams
5	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	The relationship between genetics cancer	Theoretical study practical applications	Conduct quick exams
6	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	The relationship between genetics cancer	Theoretical study practical applications	Conduct quick exams
7	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Family tree and how to benefit from genetic information	Theoretical study practical applications	Conduct quick exams
8	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Family tree and how to benefit from genetic information	Theoretical study practical applications	Conduct quick exams
9	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Family tree and how to benefit from genetic information	Theoretical study practical applications	Conduct quick exams
10	2Th+2p	The student must be aware of information provided to him and extent of its application to reality	Genetic counseling	Theoretical study practical applications	Conduct quick exams

### 13. Course Evaluation

Distribution of the grade out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, written exams, reports, etc.

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	<b>Basics of genetics</b>
Main References (sources)	<b>International scientific references</b>
Recommended Books & References (Scientific Journals, Reports ...)	<b>Specialized scientific journals and published scientific reports</b>
Websites or Electronic References	<b>Scientific references on the Internet, such as the (human genetics) website.</b>

## Course Description (Immunology 2)

<b>1. Course Title</b>	Immunology 2	
<b>2. Course Code</b>	/02013206	
<b>3. Semester/Year</b>	2024-2025	
<b>4. Description Preparation Date</b>	2/9/2024	
<b>5. Available Attendance Form</b>	face to face learning	
<b>6. No. of Hours (Total)</b>	(30 Theoretical +30 Practical )	
<b>7. No. of Credits (Total)</b>	4 units for the second semester	
<b>8. Course Administrator Name</b>	Hayder Ahmed Kadhim	
<b>9. E-mail</b>	Hayder.a@albayan.edu.iq	
<b>10. Course Objectives</b>		
<b>Knowledge</b>	<b>A1</b>	Knowledge and Understanding
	<b>A2</b>	Gaining experience in performing immunoassays
	<b>A3</b>	Gaining experience in the work of modern equipment
	<b>A4</b>	Dealing with various advanced laboratory analyzes
<b>Skills</b>	<b>B1</b>	Subject-specific skills
	<b>B2</b>	Training to use the equipment
	<b>B3</b>	making reports
	<b>B4</b>	Research work
<b>Values</b>	<b>C1</b>	Develop the student's ability to work with devices
	<b>C2</b>	Develop the student's ability to use modern laboratory equipment and techniques
	<b>C3</b>	Develop the student's ability to dialogue and debate

	<b>C4</b>	Develop the student's ability to research	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	The discussion	<b>4.</b>	Field visits to educational laboratories

15	2th+2p	Museum and other demonstration techniques		theoretical & practical	Daily exam and direct questions

### 13. Course Evaluation

The score out of 100 is based on the tasks assigned to the student, such as daily preparation, daily, oral, monthly, written exams, reports, etc.

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	Kuby IMMUNOLOGY. Sixth Edition
Main References (sources)	Kuby IMMUNOLOGY. Sixth Edition
Recommended Books & References (Scientific Journals, Reports ...)	Lectures , field studies
Websites or Electronic References	Ncbi Research gate

## Course Description (Computer applications2)

<b>1. Course Title</b>		Computer applications2	
<b>2. Course Code</b>		02013207	
<b>3. Semester/Year</b>		2025-2024	
<b>4. Description Preparation Date</b>		2024/9/6	
<b>5. Available Attendance Form</b>		Face to face attendance	
<b>6. No. of Hours (Total)</b>		(30 Theoretical + 30 Practical )	
<b>7. No. of Credits (Total)</b>		2 for the second semester	
<b>8. Course Administrator Name</b>		Asst. Lect. Mustafa Mohammed Hammoodi	
<b>9. E-mail</b>		tuhafi.1989@gmail.com	
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	The student gets to know the Excel program -	
	<b>A2</b>	The student learns how to deal with the jobs raised by this program -	
	<b>A3</b>	The student learns about the most important mathematical operations that can be applied in this program	
	<b>A4</b>	The student learns how to copy data from multiple cells and the paste options available	
<b>Skills</b>	<b>B1</b>	The student acquires the skill of dealing with the most important functions provided by the Excel program	
	<b>B2</b>	The student acquires the skill of controlling the display of cells and changing their style and format through tools -	
	<b>B3</b>	The student acquires the skill of descriptive analysis of data using the SPSS program	
	<b>B4</b>	The student acquires the skill of using ready-made functions provided by the Excel program to carry operations -	
<b>Values</b>	<b>C1</b>	Learn how to open calculator programs and deal with files, including storing, opening, editing, and lock data	
	<b>C2</b>	Learn how to use Excel & Power Point. Learn how to use the famous statistical program SPSS	
	<b>C3</b>	Learn how to open calculator programs and deal with files, including storing, opening, editing, and lock data	
	<b>C4</b>	The most important components of a computer and how to deal with them	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Through lecture, clarification methods, giving electronic assignments, and interacting within the electronic platform		<b>4.</b> Short exams, quizzes, quarterly and annual exams

# جامعة البتة

2.	Theoretical and practical lectures	5.	Apply, implement, and then evaluate the implementation
3.	- Applying the theoretical material in a practical manner electronically by using Google Sheet	6.	Short exams, quizzes, quarterly and annual exams

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1-10	30	spss	<p>The statistical program (spss), the concept of the program, its operation, and the steps of data analysis</p> <ul style="list-style-type: none"> <li>- Identify the components of the main screen, enter data, save and retrieve data, type data (direct or calculated)</li> <li>-Sort and exchange data, determine statistical procedure through the statistical topics that the student addresses in statistical lessons.</li> <li>-How to insert a variable or case, merge files, analytical analysis, descriptive statistics</li> <li>Identify the statistical summary of the given data and benefit from the data it provides</li> <li>exploring data or reports for columns or rows</li> <li>- Performing comparison of averages</li> <li>comparison between variables or regression</li> <li>- Conduct some non-parametric tests, such as chi square.</li> <li>-Applications of quality control panels.</li> <li>-Dealing with charts, such as</li> </ul>	Lecture and other explanation	Quiz and exam
10-15	15	Power point	<p>Power Point program: the concept of the program and its benefits, its operation, components of the main screen, the concept of presentations and its benefits.</p> <ul style="list-style-type: none"> <li>- Build a new presentation through templates provided by the program, or directly, store the presentation, perform presentation, make modifications, and save the changes.</li> <li>-Planning the structure of the presentation, inserting a new slide, whether it contains text or an image, entering notes, entering</li> </ul>	Lecture and other explanation	Quiz and exam

# جامعت البیان

			<p>main titles.</p> <ul style="list-style-type: none"><li>-headers) or (footers) of the slide</li><li>-Learn how to add drawings using available drawing tools, modify the text, control its shape and layout, change plan, control the colors and background of the slide.</li><li>- Adding a clip chart and ways to control such as zooming in, zooming out or cropping, adding natural images and tools to control them, adding sound effects to slides.</li></ul>

## Course Description (Analytical biostatistics)

<b>1. Course Title</b>		<b>Analytical biostatistics</b>
<b>2. Course Code</b>		<b>02013208</b>
<b>3. Semester/Year</b>		<b>Second semester / 2024-2025</b>
<b>4. Description Preparation Date</b>		2024/9/6
<b>5. Available Attendance Form</b>		<b>Attendance</b>
<b>6. No. of Hours (Total)</b>		<b>(30 Theoretical + 30 Practical )</b>
<b>7. No. of Credits (Total)</b>		<b>2</b>
<b>8. Course Administrator Name</b>		<b>Assist. Prof. Dr. Arshed Hameed Yaseen</b>
<b>9. E-mail</b>		<b>Arshed.h87@uosamarra.edu.iq</b>
<b>10. Course Objectives</b>		
<b>Knowledge</b>	<b>A1</b>	To use statistical techniques or methods to collect data and information from different sources and summarize in different ways, classify data into different classes and groups, analyze data by different statistical methods, and interpret the results to make decisions.
	<b>A2</b>	To use statistical tools or methods to measure the chance or likelihood scientifically that a particular event will occur.
	<b>A3</b>	To have the fundamental concepts of probability.
	<b>A4</b>	To use statistical techniques or methods to collect data in different classes and groups, analyze data by different statistical methods, and interpret the results to make decisions.
<b>Skills</b>	<b>B1</b>	Identify the meaning of Statistics, Apply Summation Notation and understand its properties.
	<b>B2</b>	Describe the Population and Sample.
	<b>B3</b>	Use graphical methods.
	<b>B4</b>	Identify the measures of tendency, Identify the measures of variation, Measure the relationship between two variables, and Identify the types of probability.
<b>Values</b>	<b>C1</b>	
	<b>C2</b>	
	<b>C3</b>	
	<b>C4</b>	

## 11. Teaching and Learning Strategies

1.

The main strategy that will be adopted in delivering this module is to encourage student's participation in the exercises, while at the same time refining and expanding their critical thinking skills. This will be achieved through classes, interactive tutorials, and by considering types of simple experiments involving some sampling activities that are interesting to the students like some simple and clear exercises. Different teaching techniques will be used to reach the objectives of this course. Firstly: The English language will be used during the lecture. Secondly: There will be classroom discussion and the lecturer will give enough time to solve, analyze, and evaluate problem sets throughout the semester. Thirdly: Worksheets will be designed to give students a chance to practice several aspects of the course in the classroom.

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2th+2p	Definitions: Statistics, Population Sample, Elements, Variables Data Sources: Types of Data:	Introduction to biostatistics	Data show projector	Homework exercise
2	2th+2p	Displaying grouped Frequency distribution	Strategies for Understanding Meaning of Data	Data show projector	Homework exercise
3	2th+2p	The Histogram The Frequency Polygon	Graphs	Data show projector	Homework exercise
4	2th+2p	Measures of central of tendency or measures of Location: 1-The Mean, Examples, Exercises 2-The Median, Examples, and Exercises. 3-The Mode, Examples, Exercises	Measures of Central Tendency	Data show projector	Homework exercise
5	2th+2p	Measures of Dispersion: 1-The Range 2-The Sample Variance (S <sup>2</sup> ): a- Examples, b-Exercises 3-The Standard Deviation (S): a- Examples, b-Exercises 4-The Coefficient of Variation (C.V.), Examples, Exercises.	Measures of Dispersion (Measures of Variation)	Data show projector	Homework exercise
6	2th+2p		Midterm exam		

# جامعة البيان

7	2th+2p	Box plot: display of distribution Coefficient of Correlation Scatter plot Regression	Coefficient of Correlation	Data show projector	Homework exercise
8	2th+2p	Probability Experiments, Outcomes, Sample Space, Events Probability Roles	Probability	Data show projector	Homework exercise
9	2th+2p	Combination and binomial probability distribution	Binomial probability	Data show projector	Homework exercise
10	2th+2p	Test and hypothesis (t-test, z-score), application in R	Test and hypothesis	Data show projector	Homework exercise
11			Final exam		

### 13. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

## Course Description (Clinical Chemistry)

<b>1. Course Title</b>		<b>Clinical Chemistry</b>
<b>2. Course Code</b>		<b>0201425</b>
<b>3. Semester/Year</b>		<b>2025-2024</b>
<b>4. Description Preparation Date</b>		<b>1/9/2024</b>
<b>5. Available Attendance Form</b>		<b>Attendance in the classroom in addition to e-learning</b>
<b>6. No. of Hours (Total)</b>		<b>(60 Theoretical + 60 Practical )</b>
<b>7. No. of Credits (Total)</b>		<b>8</b>
<b>8. Course Administrator Name</b>		<b>Dr. Samar Thamer Hameed</b>
<b>9. E-mail</b>		<b>Samar.thamer@albayan.edu.iq</b>
<b>10. Course Objectives</b>		
<b>Knowledge</b>	<b>A1</b>	<b>The Advanced Clinical Chemistry course is concerned with security and safety procedures within the laboratory and how to deal with hazardous materials</b>
	<b>A2</b>	<b>Learn about laboratory quality laws</b>
	<b>A3</b>	<b>Particular emphasis on examinations of some organs related to biochemical compounds</b>
	<b>A4</b>	<b>Introducing important experiments using modern technologies in laboratory diagnosis, giving the student a new opportunity to learn about specific tests</b>
<b>Skills</b>	<b>B1</b>	<b>The student should be able to acquire basic knowledge and skills in clinical chemistry</b>
	<b>B2</b>	<b>Teaching the student how to become able to think logically, analyze, and employ the prescribed curriculum vocabulary.</b>
	<b>B3</b>	<b>Developing the student's mental and personal ability in the specialty is an important part of his field of specialization</b>
	<b>B4</b>	<b>Providing the student with communication skills and using modern educational technologies effectively.</b>
<b>Values</b>	<b>C1</b>	<b>The student should be able to work collaboratively and individually to conduct clinical chemistry analyses</b>
	<b>C2</b>	<b>The student should be able to use information technology to search for information</b>

# جامعة البتة

C3	The student should be able to communicate with the professors and colleagues
C4	The student must be able to rely on himself

## 11. Teaching and Learning Strategies

1.	Providing an appropriate educational climate for logical thinking through continuous guidance of students during lectures	4.	Use the display screen to lecture and the blackboard.
2.	Opening the door for open and direct discussions with students	5.	Visit the library
3.	Follow a cooperative learning strategy	6.	Directing the student to websites to benefit from them

## Theoretical and practical vocabulary

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1&2	4	A1, A3, A4, B1, B2, B3, B4, C1, C2, C3, C4	Laboratory Safety: 1- Safety awareness of persons and safety equipments. 2- Chemical safety. 3- Biological safety . 4- fire safety and control of other hazards. 5- Disposal of hazardous materials.	Gain information about occupational safety	Oral questions
3	2	A3, A4, B1, B2, B3, B4, C1, C2, C3, C4	Requesting lab .results Classification of request card in laboratory interpretation of selective test &screening	Know the ideal form for requesting laboratory tests and the results form	solving equations
4	2	A3, A4, B1, B2, B3, B4, C1, C2, C3, C4	1- Specimen collection (urine, blood, faeces, cerebrospinal fluid and other body fluids). 2- Specimen Handling (maintenance of identification, preservation, separation, storage and transport of specimens	How to collect samples	solving equations
5,6,7	6	A2, A3, A4, B1, B2, B3, B4, C1, C2, C3, C4	Quality Management: 1- Fundamentals of total quality management. 2- The total testing process. 3- Control of preanalytical variables. 4- Control of analytical variables. 5- External quality assessment	Knowledge of the basics of laboratory quality	solving equations
8,9,10,11,12	10	A1, A2, A3, A4, B1, B2, B3, B4, C1, C2, C3, C4	Advanced technique in clinical chemistry	Learn about advanced techniques related to clinical chemistry	Written exam

# جامعة البتة

13,14	4	A1, A2, A3, A4, B1, B2, B3, B4, C1, C3, C4	Computers in clinical chemistry	Learn about modern techniques in advanced clinical chemistry	solving equations
15,16,17,18	8	A1, A2, A3, A4, B1, B2, B3, B4, C1, C3, C4	Pediatric clinical chemistry	Knowing the concentrations of some substances related to clinical chemistry in children	Discussions
19,20,21	6	A1, A2, A3, A4, B1, B2, B3, B4, C1, C3, C4	Functional tests in clinical chemistry and profile tests investigations	Knowledge of routine tests to evaluate organ functions	Oral questions and discussions
22	2	A1, A2, A3, A4, B1, B2, B3, B4, C1, C3, C4	Problems in biochemistry calculation	How to solve arithmetic problems	Oral questions and discussions
23,up	16	A1, A2, A3, A4, B1, B2, B3, B4, C1, C3, C4	Case studies in clinical chemistry	Knowledge of routine tests to evaluate medical conditions	Oral questions and discussions

### 13. Course Evaluation

Distribution of the grade out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, written exams, reports, etc.

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	Peter Rae - Clinical Biochemistry Lecture Notes (2018, John Wiley & Sons Ltd)
Main References (sources)	Michael L. Bishop, Clinical Chemistry: Principles, Techniques, and Correlations, NINTH EDITION 2023
Recommended Books & References (Scientific Journals, Reports ...)	Tietz Fundamentals of Clinical Chemistry and Molecular Diagnostics, 9th Edition

## Course Description (Medical Parasitology )

<b>1. Course Title</b>	Medical Parasitology		
<b>2. Course Code</b>	0201426		
<b>3. Semester/Year</b>	2025-2024		
<b>4. Description Preparation Date</b>	6/9/2025		
<b>5. Available Attendance Form</b>	In-person lecture+ online		
<b>6. No. of Hours (Total)</b>	(60 Theoretical + 60 Practical )		
<b>7. No. of Credits (Total)</b>	8		
<b>8. Course Administrator Name</b>	Dr. safa tawfeeq whqeeb		
<b>9. E-mail</b>	safa.tawfeeq@albaya.edu.iq		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Knowledge of the parasite's appearance, life cycle, and pathogenesis.	
	<b>A2</b>	Diagnose all parasites of medical importance.	
	<b>A3</b>	Identify the epidemiology of parasites with special reference to those endemic to Iraq.	
	<b>A4</b>	Control and prevent the spread of disease	
<b>Skills</b>	<b>B1</b>	Teaching the use of a microscope and diagnosing the stages of parasites	
	<b>B2</b>	Teaching modern techniques in diagnosis	
	<b>B3</b>		
	<b>B4</b>		
<b>Values</b>	<b>C1</b>	Participation in seminars and conferences held inside and outside the college	
	<b>C2</b>	Motivating students to expand their thinking by making posters and scientific research	
	<b>C3</b>	Develop skills to solve problems that hinder student understanding	
	<b>C4</b>	Holding periodic seminars for students to exchange information, raise the level thinking, and enhance self-confidence	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Education through pictures presentation	<b>4.</b>	
<b>2.</b>	Education through video presentation	<b>5.</b>	
<b>3.</b>	Education via online	<b>6.</b>	

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2th+2p	Medical Parasitology 1	Recent classification of parasite Systematic grouping of parasites General terms used in parasitology	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
2	2th+2p	Medical Parasitology 1	Strategies for diagnosis of parasitic infection Collection and transport of specimens for factors interfering for all *enteric pathogens types of stool collection *Precaution in the procedure of collection of specimens	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
3	2th+2p	Medical Parasitology 1	Examination of stool sample a) Macroscopic examination of stool b) Microscopic examination of wet mounts	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
4	2th+2p	Medical Parasitology 1	Preparation of solutions for wet mount; the advantages and disadvantages of each solution Saline solution Iodine solutions Eosin solution	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz- Monthly exam
5	2th+2p	Medical Parasitology 1	Preparation of preservatives and fixatives for mounted slides (%7-5) Formalin solution PVA (Polyvinyle alcohol) as fixative Schaudinns fixative	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
6	2th+2p	Medical Parasitology 1	Laboratory diagnosis of enteric protozoa *The routine methods used in laboratory diagnosis	Theoretical and practical	-Through questions during lecture

# جامعة البيان

					-The student participates explaining a topic - The Quiz - Monthly exam.
7	2th+2p	Medical Parasitology 1	Concentration methods; types, purpose to concentration methodes	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
8	2th+2p	Medical Parasitology 1	Application of immunological methods in diagnosis of parasite in general * Detectio antibodies in serum of patients with enteric protozoa (ELISA) * Detection antigens in stool specimen of patients with enteric protozoa (ELISA)	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
9	2th+2p	Medical Parasitology 1	Differentiation of pathogenic Entamoebahistolytica and the morphologically identical non pathogenic Entamoebadispar using immunological assays.	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
10	2th+2p	Medical Parasitology 1	The application of molecular assays in diagnosis ofparasites	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
11	2th+2p	Medical Parasitology 1	Free living pathogenic amoeba Naegleriafowleri&Acanthamoeba Morphology, habitat, mode of infect infective stage, life cycle and labora diagnosis	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
12	2th+2p	Medical Parasitology 1	Blastocystishominis as the causative agen irritable bowel syndrome Morphology of forms, habitat, mode of infection, infective stage and laboratory diagnosis	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz

# جامعة البيان

					- Monthly exam.
13	2th+2p	Medical Parasitology 1	Tissue flagellates e.g Genus Trypanosoma & Genus Leishmania Laboratory diagnosis; routine methods, immunological Assays molecular assays	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
14	2th+2p	Medical Parasitology 1	Properties of ideal vaccines. leishmania Vaccine in trail	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
15	2th+2p	Medical Parasitology 1	Phylum Apicomlexa; Main properties of group, ultrastructure of the apical complex	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
16	2th+2p	Medical Parasitology 1	First term examination	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
17	2th+2p	Medical Parasitology 1	Intestinal coccidian e.g Cryptosporidium parvum Morphology, habitat, mode of infection, infective stage, lifecycle laboratory diagnosis with special emphasis on Ziehl-Neelsen technique	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
18	2th+2p	Medical Parasitology 1	Extra-intestinal coccidian e.g. Toxoplasma gondii Brief lecture morphology, habitat, modes of infection, infective stages, cycle	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
19	2th+2p	Medical Parasitology 1	Methods of laboratory diagnosis includes: Direct detection of the	Theoretical and practical	-Through questions during lecture

# جامعة البيان

			parasite; Serological methods& Molecular assays		-The student participates explaining a topic - The Quiz - Monthly exam.
20	2th+2p	Medical Parasitology 1	Genus Plasmodium; Terms used in malaria& Life cycle	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
21	2th+2p	Medical Parasitology 1	Methods of laboratory diagnosis include Preparation and detection of parasite in thick and thin blood Smears - Preparation Geimsa and leishman stains – Quantitative Buffy Coat (QBC) test - microscopic test - Rapid Diagnostic Tests (RDTs)	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
22	2th+2p	Medical Parasitology 1	Introduction to Helminths Classification helminthes into: Phylum Platyhelminths which includes; Class Cestoda& Class Trematoda	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
23	2th+2p	Medical Parasitology 1	General characters of: Platyhelminths& Class Cestoda	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic- The Quiz - Monthly exam.
24	2th+2p	Medical Parasitology 1	Genus Taenia including Taeniasaginata solium Morphology, habitat, mode of infective stage, life cycle and laboratory diagnosis;differentiate between both species in labrotory	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
25	2th+2p	Medical Parasitology 1	EchinococcusgranulosusShort notes on parasite with special emphasis on the methods of diagnosis (detection certain Ag)	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz

# جامعة البتاني

					- Monthly exam.
26	2th+2p	Medical Parasitology 1	Genus Schistosoma in general with emphasis on the species endemic in Schistosomahaematobium the use of special technique in the examination of urine sample (filtration by Schisto-kit) as direct method and immunoblot as indirect method	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
27	2th+2p	Medical Parasitology 1	Second term examination	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
28	2th+2p	Medical Parasitology 1	Phylum Nematelminths in general Short notes on; Ascarislumbricoides, Enterobiusvermicularis, Ancylostomaduodenale, Strongyloidesstercoralis	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
29	2th+2p	Medical Parasitology 1	Modified Kato-Katis technique examination of thick smear, application of anal swab for pin worm	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.
30	2th+2p	Medical Parasitology 1	Haradi-Mori technique for cultivation of hook worm and detection of rhabditiform and filariform larvae	Theoretical and practical	-Through questions during lecture -The student participates explaining a topic - The Quiz - Monthly exam.

### 13. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	<b>Paniker's Textbook of Medical Parasitology</b>
Main References (sources)	<b>Paniker's Textbook of Medical Parasitology</b>
Recommended Books & References (Scientific Journals, Reports ...)	<b>Evolutionary Parasitology</b>  <b>Textbook of Medical Parasitology</b>
Websites or Electronic References	Any good research and good websites

## Course Description (Blood transfusion )

<b>1. Course Title</b>		<b>Blood transfusion</b>
<b>2. Course Code</b>		<b>0201427</b>
<b>3. Semester/Year</b>		<b>2025-2024</b>
<b>4. Description Preparation Date</b>		<b>2024/9/10</b>
<b>5. Available Attendance Form</b>		<b>Official attendance time (morning and evening)</b>
<b>6. No. of Hours (Total)</b>		<b>60 hours for the theoretical aspect and 60 hours for the practical aspect</b>
<b>7. No. of Credits (Total)</b>		<b>8 units</b>
<b>8. Course Administrator Name</b>		<b>Assistant Lecturer Ali Saad Kazem</b>
<b>9. E-mail</b>		<b>ali.saad@albayan.edu.iq</b>
<b>10. Course Objectives</b>		
<b>Knowledge</b>	<b>A1</b>	Teaching students about the blood group systems in the human body and how to prevent giving mismatched blood
	<b>A2</b>	Study of blood types, antigens, antibodies, immune reactions, control of immune diseases, immunizations, and immunodiagnostic.
	<b>A3</b>	The program aims to provide students with the necessary skills to work in the fields of health care, scientific research, technological development, education and training.
	<b>A4</b>	Teaching students the mechanism of blood donation and how to store blood units in the blood bank
<b>Skills</b>	<b>B1</b>	Scientific reports
	<b>B2</b>	Daily exams
	<b>B3</b>	Monthly tests
	<b>B4</b>	Practical examinations
<b>Values</b>	<b>C1</b>	Participation in the classroom
	<b>C2</b>	Provide activities
	<b>C3</b>	Semester and final tests and activities
	<b>C4</b>	Self-learning, discussion panels
<b>11. Teaching and Learning Strategies</b>		
<b>1.</b>	<b>Active participation in the classroom is evidence of the student's commitment and responsibility</b>	<b>4.</b> <b>Developing the student's ability to deal with multiple media.</b>

# جامعة البتة

2.	<b>Adherence to the specified deadline for submitting assignments and research.</b>	5.	<b>Active participation in the classroom is evidence of the student's commitment and responsibility</b>
3.	<b>Semester and final exams express commitment and cognitive and skill achievement.</b>	6.	<b>Developing the student's ability to deal with technical means</b>

## Course Description (Histopathology)

<b>1. Course Title</b>		Histopathology	
<b>2. Course Code</b>		0201428	
<b>3. Semester/Year</b>		2025-2024	
<b>4. Description Preparation Date</b>		5/9/2025	
<b>5. Available Attendance Form</b>		<b>Lectures and practical sessions</b>	
<b>6. No. of Hours (Total)</b>		<b>60 hours (theory)</b> <b>60 hours (practical)</b>	
<b>7. No. of Credits (Total)</b>		7	
<b>8. Course Administrator Name</b>		<b>Dr. Ahmed Turki Hani</b>	
<b>9. E-mail</b>		<b>ahmedt@albayan.edu.iq</b>	
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Learn the students the gross structure of human organs.	
	<b>A2</b>	Provide the students with the skills of managements and solving problems during pract training.	
	<b>A3</b>	Learn the student to understand the diseases in different body systems	
	<b>A4</b>	Make the student correlate his knowledge with the clinical problem solving.	
<b>Skills</b>	<b>B1</b>		
	<b>B2</b>		
	<b>B3</b>		
	<b>B4</b>		
<b>Values</b>	<b>C1</b>	identification and handling in anatomical pathology.	
	<b>C2</b>	Acquire the necessary skills required in the preparation of slides for microscopic examination.	
	<b>C3</b>	Demonstrate a general knowledge of the principles and procedures involved in the collection specimens from different body systems.	
	<b>C4</b>		
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>		<b>4.</b>	
<b>2.</b>		<b>5.</b>	
<b>3.</b>		<b>6.</b>	

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Lung (atelectasias, acute lung injury)	Data show and white board	Quiz and homework
2	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Lung (chronic bronchitis pulmonary embolism)	Data show and white board	Quiz and homework
3	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Lung tumors	Data show and white board	Quiz and homework
4	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Kidney (glomerular disease)	Data show and white board	Quiz and homework
5	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Kidney (nephrotic syndrome) IgA nephropathy (Berger disease)	Data show and white board	Quiz and homework
6	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Kidney tumors	Data show and white board	Quiz and homework
7	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Cancer of the oral cavity and tongue	Data show and white board	Quiz and homework
8	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Esophagus (lacivation, varices, esophageal carcinoma)	Data show and white board	Quiz and homework
9	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Stomach (gastritis, ulcer, carcinoma)	Data show and white board	Quiz and homework

# جامعة البتاني

10	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Large intestines (hemorrhoids, malabsorption syndrome)	Data show and white board	Quiz and homework
11	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Crohn disease	Data show and white board	Quiz and homework
12	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Large intestines tumors	Data show and white board	Quiz and homework
13	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Liver (hepatic infection, failure, cirrhosis)	Data show and white board	Quiz and homework
14	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Hepatic tumors	Data show and white board	Quiz and homework
15	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Gall bladder (cholecystitis, tumors)	Data show and white board	Quiz and homework
16	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Pancreas (pancreatitis)	Data show and white board	Quiz and homework
17	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Pancreatic neoplasma	Data show and white board	Quiz and homework
18	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Male genital system (testicular atrophy, lesions, neoplasma)	Data show and white board	Quiz and homework
19	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Male genital system (prostatitis, tumors)	Data show and white board	Quiz and homework
20	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Female genital system (cervicitis, tumor of the cervix)	Data show and white board	Quiz and homework

# جامعة البتاني

21	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Uterus (endometritis, endometriosis, tumor of the uterus)	Data show and white board	Quiz and homework
22	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Breast (fibrocystic changes, tumors of the breast)	Data show and white board	Quiz and homework
23	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Endocrine system (hyperpituitarism and pituitary adenoma)	Data show and white board	Quiz and homework
24	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Thyroid (thyroiditis, thyroid neoplasma)	Data show and white board	Quiz and homework
25	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Bone tumors	Data show and white board	Quiz and homework
26	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Skin (acute eczematous dermatitis, psoriasis)	Data show and white board	Quiz and homework
27	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Skin tumors	Data show and white board	Quiz and homework
28	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Nervous system (brain tumor)	Data show and white board	Quiz and homework
29	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Nervous system (diseases of the peripheral nervous system)	Data show and white board	Quiz and homework
30	2th+2p	The student should be aware of the information provided to him and the extent of its applicability to reality	Multiple sclerosis and other neuronal disorders	Data show and white board	Quiz and homework

**13. Course Evaluation**

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports .... etc

**14. Learning & Teaching Resources**

Required textbooks (curricular if any)	<b>Robbins and Cotran Pathologic Basis of Disease</b>

Recommended Books & References (Scientific Journals, Reports ...)	
Websites or Electronic References	

## Course Description (Laboratory management and teaching of research methods)

<b>1. Course Title</b>		<b>Laboratory management and teaching of research methods</b>	
<b>2. Course Code</b>		0201430	
<b>3. Semester/Year</b>		2024 /2025	
<b>4. Description Preparation Date</b>		3-9-2024	
<b>5. Available Attendance Form</b>		<b>Theoretical</b>	
<b>6. No. of Hours (Total)</b>		<b>(60h) Theoretical</b>	
<b>7. No. of Credits (Total)</b>		<b>2</b>	
<b>8. Course Administrator Name</b>		<b>Asst.Prof.Riad Abdulhussien Delool</b>	
<b>9. E-mail</b>		Riad.delool@albayan.edu.iq	
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	How to keep results accurate	
	<b>A2</b>	Continuous development of the accuracy of pathological analysis results	
	<b>A3</b>	Accuracy in selecting laboratory departments and their efficiency	
	<b>A4</b>	Know how to deal with those requesting pathological analyzes	
<b>Skills</b>	<b>B1</b>	How to deal scientifically with maintaining the efficiency of laboratories	
	<b>B2</b>	Selecting the appropriate staff for laboratory management	
	<b>B3</b>	<b>Maintaining sound relations between laboratory directors and scientific staff working in laboratory</b>	
	<b>B4</b>	Pay attention to the maintenance and periodic inspection of devices to maintain them	
<b>Values</b>	<b>C1</b>	Paying attention to graduating competent personnel for laboratories	
	<b>C2</b>	Accuracy in reading analysis results	
	<b>C3</b>	Periodic inspection of devices to ensure accuracy of readings	
	<b>C4</b>	Maintaining appropriate relations between laboratory workers and management	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Trying to learn about international experiences in laboratory management	<b>4.</b>	Many short-term scientific missions
<b>2.</b>	Continuously developing the curriculum	<b>5.</b>	More tests to develop students' level
<b>3.</b>	Continuous review of international educational systems	<b>6.</b>	Continuous interaction with other universities to identify differences in teaching methods

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2	The student must be aware of information provided to him and extent of its application to reality	Types of laboratories and their role in controlling infections	Theoretical applications	Conducting tests to develop staff
2	2	The student must be aware of information provided to him and extent of its application to reality	Types of laboratories and their role in controlling infections	Theoretical applications	Conducting tests to develop staff
3	2	The student must be aware of information provided to him and extent of its application to reality	Types of laboratories and their role in controlling infections	Theoretical applications	Conducting tests to develop staff
4	2	The student must be aware of information provided to him and extent of its application to reality	Laboratory management including Director, management level and planning	Theoretical applications	Conducting tests to develop staff
5	2	The student must be aware of information provided to him and extent of its application to reality	Laboratory management including Director, management level and planning	Theoretical applications	Conducting tests to develop staff
6	2	The student must be aware of information provided to him and extent of its application to reality	Laboratory management including Director, management level and planning	Theoretical applications	Conducting tests to develop staff
7	2	The student must be aware of information provided to him and extent of its application to reality	Contribution of laboratories to the individual health of the people	Theoretical applications	Conducting tests to develop staff
8	2	The student must be aware of information provided to him and extent of its application to reality	Contribution of laboratories to community public health	Theoretical applications	Conducting tests to develop staff
9	2	The student must be aware of information provided to him and extent of its application to reality	Long range planning	Theoretical applications	Conducting tests to develop staff
10	2	The student must be aware of information provided to him and extent of its application to reality	Short term planning	Theoretical applications	Conducting tests to develop staff

# جامعة البتة

11	2	The student must be aware of information provided to him and extent of its application to reality	Intermediate planning	Theoretical applications	Conducting tests to develop staff
12	2	The student must be aware of information provided to him and extent of its application to reality	Organization	Theoretical applications	Conducting tests to develop staff
13	2	The student must be aware of information provided to him and extent of its application to reality	The role of management in maintaining staff and staff development	Theoretical applications	Conducting tests to develop staff
14	2	The student must be aware of information provided to him and extent of its application to reality	The role of management in maintaining staff and staff development	Theoretical applications	Conducting tests to develop staff
15	2	The student must be aware of information provided to him and extent of its application to reality	The role of management in maintaining staff and staff development	Theoretical applications	Conducting tests to develop staff
16	2	The student must be aware of information provided to him and extent of its application to reality	Leadership includes controlling the Scientific staff, administration staff and Cleaning staff	Theoretical applications	Conducting tests to develop staff
17	2	The student must be aware of information provided to him and extent of its application to reality	Leadership includes controlling the Scientific staff, administration staff and Cleaning staff	Theoretical applications	Conducting tests to develop staff
18	2	The student must be aware of information provided to him and extent of its application to reality	Leadership includes controlling the Scientific staff, administration staff and Cleaning staff	Theoretical applications	Conducting tests to develop staff
19	2	The student must be aware of information provided to him and extent of its application to reality	Leadership includes controlling the Scientific staff, administration staff and Cleaning staff	Theoretical applications	Conducting tests to develop staff
20	2	The student must be aware of information provided to him and extent of its application to reality	Controlling storage including Administrative materials and scientific Materials	Theoretical applications	Conducting tests to develop staff
21	2	The student must be aware of information provided to him and extent of its application to reality	Controlling storage including Administrative materials and scientific Materials	Theoretical applications	Conducting tests to develop staff

# جامعة البتة

22	2	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Controlling storage including Administrative materials and scientific Materials	Theoretical applications	Conducting tests to develop staff
23	2	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Controlling storage including Administrative materials and scientific Materials	Theoretical applications	Conducting tests to develop staff
24	2	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Dealing with the community and guiding The people from the health side	Theoretical applications	Conducting tests to develop staff
25	2	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Dealing with the community and guiding The people from the health side	Theoretical applications	Conducting tests to develop staff
26	2	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Dealing with analysis results in accurate manner	Theoretical applications	Conducting tests to develop staff
27	2	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Dealing with analysis results in accurate manner	Theoretical applications	Conducting tests to develop staff
28	2	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Using the computer to analyze the Results correctly and maintaining Devices and equipment	Theoretical applications	Conducting tests to develop staff
29	2	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Using the computer to analyze the Results correctly and maintaining Devices and equipment	Theoretical applications	Conducting tests to develop staff
30	2	<b>The student must be aware of information provided to him and extent of its application to reality</b>	Using the computer to analyze the Results correctly and maintaining Devices and equipment	Theoretical applications	Conducting tests to develop staff

### 13. Course Evaluation

Distribution of the grade out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, written exams, reports, etc.

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	<b>Principles of laboratory management</b>
Main References (sources)	<b>Laboratory management</b>
Recommended Books & References (Scientific Journals, Reports ...)	<b>Scientific journals and international reports on laboratory management</b>
Websites or Electronic References	<b>Global laboratory management website</b>

## Course Description (English language)

<b>1. Course Title</b>		<b>English language</b>	
<b>2. Course Code</b>		<b>0201431</b>	
<b>3. Semester/Year</b>		<b>2024/2025</b>	
<b>4. Description Preparation Date</b>		<b>10-9-2024</b>	
<b>5. Available Attendance Form</b>		<b>Presence</b>	
<b>6. No. of Hours (Total)</b>		<b>60 Hours Annually</b>	
<b>7. No. of Credits (Total)</b>		<b>2</b>	
<b>8. Course Administrator Name</b>		<b>Dr. Hamida Tomas Jasim</b>	
<b>9. E-mail</b>		<b>Sahartomas82@gmail.com</b>	
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Knowledge of specific academic subjects.	
	<b>A2</b>	Improve written skills through practice of writing descriptions, reports and other subject specific texts	
	<b>A3</b>		
	<b>A4</b>		
<b>Skills</b>	<b>B1</b>	Enable students to communicate more confidently and effectively in their work or study environment.	
	<b>B2</b>		
<b>Values</b>	<b>C1</b>	Assigning a specific grade to the student's activity and participation in the English lesson .	
	<b>C2</b>	Testing the student through the quarterly exam	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	<b>Quizzes</b>	<b>4.</b>	
<b>2.</b>	<b>Lectures</b>	<b>5.</b>	
<b>3.</b>	<b>Using Datashow to explain the lessons</b>	<b>6.</b>	

## 12. The Structure of the Course

Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2	Acquire knowledge	<b>Reviewing + reading</b>	Theoretical explanation	Attendance + quiz
2	2	Acquire knowledge	<b>Verbes and tenses</b>	Theoretical explanation	Attendance + quiz
3	2	Acquire knowledge	<b>Continuous past Verb Tense</b>	Theoretical explanation	Attendance + quiz
4	2	Acquire knowledge	<b>Continuous Present Verb Tense</b>	Theoretical explanation	Attendance + quiz
5	2	Acquire knowledge	<b>Continuous Future</b>	Theoretical explanation	Attendance + quiz
6	2	Acquire knowledge	<b>Reading + Giving Oral Presentations</b>	Theoretical explanation	Attendance + quiz
7	2	Acquire knowledge	<b>Conjunction tools</b>	Theoretical explanation	Attendance + quiz
8	2	Acquire knowledge	<b>Quiz Question</b>	Theoretical explanation	Attendance + quiz
9	2	Acquire knowledge	<b>Perfect past</b>	Theoretical explanation	Attendance + quiz
10	2	Acquire knowledge	<b>Perfect present</b>	Theoretical explanation	Attendance + quiz
11	2	Acquire knowledge	<b>Perfect future</b>	Theoretical explanation	Attendance + quiz
12	2	Acquire knowledge	<b>Exercise application</b>	Theoretical explanation	Attendance + quiz
13	2	Acquire knowledge	<b>Identify some common mistakes in English</b>	Theoretical explanation	Attendance + quiz
14	2	Acquire knowledge	<b>English communication + reading passages</b>	Theoretical explanation	Attendance + quiz
15	2		<b>Final exam</b>		
16	2	Acquire knowledge	<b>Continuous perfect past</b>	Theoretical explanation	Attendance + quiz
17	2	Acquire knowledge	<b>Continuous perfect present</b>	Theoretical explanation	Attendance + quiz
18	2	Acquire knowledge	<b>Much and Many</b>	Theoretical explanation	Attendance + quiz
19	2	Acquire knowledge	<b>Prepositions on, in and at</b>	Theoretical explanation	Attendance + quiz
20	2	Acquire knowledge	<b>Continuous perfect future</b>	Theoretical explanation	Attendance + quiz

# جامعة البتة

21	2	Acquire knowledge	<b>Exercise application</b>	Theoretical explanation	Attendance + quiz
22	2	Acquire knowledge	<b>Quiz Question</b>	Theoretical explanation	Attendance + quiz
23	2	Acquire knowledge	<b>Explaining Other, Another and Others</b>	Theoretical explanation	Attendance + quiz
24		Acquire knowledge	<b>How to Write a Paper I</b>	Theoretical explanation	Attendance + quiz
25		Acquire knowledge	<b>As, Because, Since</b>	Theoretical explanation	Attendance + quiz
26		Acquire knowledge	<b>English communication + reading passages</b>	Theoretical explanation	Attendance + quiz
27		Acquire knowledge	<b>Few and fewer+ Exercise</b>	Theoretical explanation	Attendance + quiz
28		Acquire knowledge	<b>Passive voice</b>	Theoretical explanation	Attendance + quiz
29		Acquire knowledge	<b>Making question in English</b>	Theoretical explanation	Attendance + quiz
30			<b>Final exam</b>		

### 13. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly, written exams, reports ... etc

### 14. Learning & Teaching Resources

Required textbooks (curricular if any)	New Headway advanced
Main References (sources)	New headway advanced student's Book
Recommended Books & References (Scientific Journals, Reports ...)	New headway advanced student's Book 5 <sup>th</sup> edition 2019 New headway advanced teacher's Guide 5th edition 2019
Websites or Electronic References	<a href="https://www.academia.edu">https://www.academia.edu</a>

## Course Description (Professional Ethics)

<b>1. Course Title</b>	<b>Professional Ethics</b>		
<b>2. Course Code</b>	0201432		
<b>3. Semester/Year</b>	2025 /2024		
<b>4. Description Preparation Date</b>	3-9-2024		
<b>5. Available Attendance Form</b>	<b>In-person lecture</b>		
<b>6. No. of Hours (Total)</b>	<b>30 Theoretical</b>		
<b>7. No. of Credits (Total)</b>	<b>2</b>		
<b>8. Course Administrator Name</b>	<b>Dr.Ghufan.h.Abed</b>		
<b>9. E-mail</b>	<b>Ghufan.h@albayan.edu.iq</b>		
<b>10. Course Objectives</b>			
<b>Knowledge</b>	<b>A1</b>	Provide the student with the appropriate method for dealing with patients, devices and equipment in the of work	
	<b>A2</b>		
	<b>A3</b>		
	<b>A4</b>		
<b>Skills</b>	<b>B1</b>	Teaching how to deal with patients or anyone with flexibility and avoid disagreements	
	<b>B2</b>		
	<b>B3</b>		
	<b>B4</b>		
<b>Values</b>	<b>C1</b>	Participation in seminars and conferences held inside and outside the college	
	<b>C2</b>	Motivating students to expand their thinking by making posters and scientific research	
	<b>C3</b>	Develop skills to solve problems that hinder student understanding	
	<b>C4</b>	Holding periodic seminars for students to exchange information, raise the level thinking, and enhance self-confidence	
<b>11. Teaching and Learning Strategies</b>			
<b>1.</b>	Education through pictures presentation	<b>4.</b>	
<b>2.</b>		<b>5.</b>	
<b>3.</b>		<b>6.</b>	

12. The Structure of the Course					
Week	Hours	RLOs	Topic/Subject Name	Learning Method	Evaluation Method
1	2	Principles of professional conduct	Principles of professional ethics in stages of cultural developments	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
2	2	Principles of professional conduct	Professional behavior, its concept Its practical applications	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
3	2	Principles of professional conduct	Types of employees and ways to deal with each type	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
4	2	The basics of professional dealing	Methods that the manager must follow it to encourage the employee, motivate him to work, and increase his productivity	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz

# جامعة البيان

					- Monthly exam.
5	2	The basics of professional dealing	Basic etiquette of the profession How to employ professional ethics from the position of guiding the individual's behavior, emotions, and ability to make the appropriate decision	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
6	2	The basics of professional dealing	Characteristics and qualities of health workers Appearance, behavior and commitment	Theoretical 2	-Through questions during the lecture -The student participate in explaining a topic - The Quiz - Monthly exam.
